Publications, Susanne Kratzer, Associate Professor, DEEP, SU

Peer-reviewed papers

**Book chapters**

**Monographs**

Kratzer, S., 2000, Bio-optical studies of coastal waters, PhD thesis; monograph in English, School of Ocean Sciences, University of Wales, Bangor, UK. Peer reviewed.

Kratzer, S., 1994, A comparison of the optical properties of phytoplankton from coastal and oceanic waters, Diplomarbeit (Master Thesis, written in English), Universität Bremen, Germany.

**Conference Papers**

Kratzer, S. and Moore, G., Inherent Optical Properties of the NW Baltic Sea in Comparison to other Seas and Oceans, poster at Ocean Science/ASLO conference in Honolulu, Hawaii, 23-28 February 2014 (poster).

Hommersom , A., Kratzer, S., Strömebeck, N. and Philipson, P., 2012, Characterisation of the optical properties of Lake Vänern, Sweden, for improved water quality mapping by
remote sensing, Extended abstract and poster at Ocean Optics, Glasgow, October 2012.

Moore, G.F., Icely, J.D. and Kratzer, S., 2010, Field inter-comparison and validation of in-water radiometers and sun photometers for MERIS validation. Poster presentation ESA Living Planet Symposium in Bergen, Norway from 28 June to 2 July 2010, will be published as Special Publication SP-686 on CD-ROM.

**Contribution to important reports**

- MARE report, 2001, Nitrogen fixation in the Baltic Sea, A brief guide for environmental managers, Reports from the Department of Biology and Environmental Sciences, University of Kalmar.
