

Student feedback 2025: Why did you choose SULaw's Summer Programme?

As we know there are many summer programmes students can apply to, we ask all our students to give us feedback through an anonymous survey why they chose us. Here are some of their earnest answers on why they decided to undertake our summer programme 2024.

I chose it because I like Stockholm and because the offered courses were interesting.

It just sounded the most fun to be honest, plus I've always wanted to visit Sweden so it's a win-win.

I liked how it was a law focused programme which meant that there was a more diverse subject offering. Other universities had a generalised programme that would only have 1-2 law related courses which greatly limited options.

Fashion law was exactly what I was searching.

My classmate who have participated in your project before highly recommend it to me. First of all, the cost of the project is relatively reasonable. Secondly, the academic and social parts of the project maintain a good balance.

Stockholm was on my bucket list and the topics interested me the most.

I had always wanted to visit Stockholm, and your website really sold it to me!

The subject choices were most intriguing to me and it seemed like a relatively shorter course that would provide lots of opportunities for learning and exploring a country I had never visited before.

Interesting courses, recommendation from one student who chose the same program last year.

It was the only available law course that my university offered a scholarship for.
