

Student feedback 2025: What is your overall impression of SULaw's Summer Programme?

The summer programme is very well organised and the experience from running it for many years really shows. Loved the support system, how helpful everyone is and all the people I met. Loved the structure of the programme where it's designed so that classes are spread throughout the morning, leaving you with ample time to engage in various activities and spend time with other students. But it is also organised in a way that doesn't detract from the quality of the teaching and course content. Social programme offering was very diverse with a perfect mix of community, tourist, cultural and law related activities/events.

Incredibly warm people, and a really awesome unique experience.

Honestly had a really great time. Everyone was extremely nice and the academics were quite interesting.

I had the opportunity to exchange different perspectives with students from around the world; the teachers have excellent academic levels and gave me an initial understanding of the selected courses; the summer in Stockholm is very beautiful.

It was a brilliant experience and I would definitely recommend it to others.

Very welcoming and fun environment, where I was comfortable enough to learn and be myself.

It was a great program and I would have loved to stay longer.

As we strive to improve and tweak our summer programme, we ask all our students to give us feedback through an anonymous survey. We use all constructive feedback to make the following year even better! Here are most of the answers on the overall impression of the programme 2024.

SULaw's Summer Programme is a good way to spend summer. You get to know new people from different countries, find out more about yourself by living alone, navigating in a new city and also studying a new branch of law.
