

Student feedback 2024: Why did you choose SULaw's Summer Programme?

Photo: Campus Frescati, Malin Gustafsson

As we know there are many summer programmes students can apply to, we ask all our students to give us feedback through an anonymous survey why they chose us. Here are some of their earnest answers on why they decided to undertake our summer programme 2024.

First of all, the courses provided evokes my interest. Besides, the time period is good because it is the best time of year in Sweden. Also, it is cheap and accommodation was provided for us at Albano which also saves a lot of money.

Sweden was an interesting destination for me, I liked the modules that were offered for the summer school, and believed that Stockholm was a great place to study International Trade Law in particular.

The selection of courses offered was incredible diverse compared to other programmes I have seen.

It was a world-leading institution and I thought Sweden would be a great place to be. I'm glad I did.

Sweden is somewhere I had always wanted to visit.

Because my home university offers a scholarship which means I don't need to pay the fees.

I liked that this programme was exclusively law based, other programmes I saw included law as one option out of many subjects. It was nice knowing that everyone I would meet is a law student like me. Also I have always wanted to visit Stockholm!

The programme has a broader range of options for courses than other summer programmes which are often focused on a specific area of law.

Availability of accommodation through school, diversity of courses, bursaries, social programme.
