Short biography

I am a post-doctoral researcher at the Stockholm University Demography Unit (SUDA) and a visiting fellow in the Department of Methodology at the London School of Economics. Prior to completing my PhD, I worked as a senior researcher at the Office for National Statistics. I have also worked as a managing consultant for a range of research projects, typically providing advice on research design and analysis for surveys and evaluation projects. My research covers a range of topics relating to demography, sociology, migration studies, geography, epidemiology, political science and research methods. I have received large-scale funding for several projects that aim to understand the demographic lives of immigrants and their descendants. My recent research includes studies of refugees living in Europe, studies of health inequalities, and studies of the impact of residential segregation on different members of society. My teaching reflects my research interests, in particular topics relating to demography, migration, and research methods.

Academic and research positions

2016 -	Postdoctoral researcher , Stockholm University Demography Unit
2016 -	Visiting Fellow , Department of Methodology, London School of Economics
2014 - 2016	Fellow , Department of Methodology, London School of Economics

Teaching experience

I have more than 750 hours of experience in teaching for higher education, including courses for undergraduates, postgraduates, faculty, and professional researchers. I have a degree in teaching and have designed several courses, most recently a summer school in survey research methods.

A summary of my teaching experience is as follows:

2016-2020 **Lecturer and course leader/organiser**, London School of Economics
Survey research methods: from design to analysis (summer school)
Event history methods for the social sciences

2017-2020 **Lecturer**, Stockholm University
Migration, ethnicity and integration
Complex Inequalities

2019 **Lecturer and course organiser**, Tallinn University
Methods Masterclass: Causal inference in the social sciences

2014-2016 **Fellow**, Department of Methodology, London School of Economics
Fundamentals of social science research design
Survey methodology
Causal inference for experimental and observational studies
Statistical analysis of survey data and the use of survey weights
Event history analysis
Introduction to quantitative analysis
Applied regression analysis
Dissertation supervision

2011-2014 **Graduate Teaching Assistant**, London School of Economics
Causal inference for experimental and observational studies
Assessing social progress
Applied regression analysis
Introduction to linear regression
Introduction to quantitative analysis
Survey methods (LSE methods summer school)

2013 **Graduate Teaching Assistant**, Essex Summer School
Logit and probit models

2012-2013 **Graduate Teaching Assistant**, ICPSR Summer Program, Berkeley
Causal inference for the social sciences

Professional memberships

International Union for the Scientific Study of Population
European Association for Population Studies
Population Association of America
British Society for Population Studies
Swedish Demographic Association
Italian Population Association
Fellow of the Higher Education Academy

Professional service

Service as expert: I have served as an expert for the following groups:
Mapping research on segregation (Swedish Research Council)

Project management: I am a member of the steering committee for the RJ programme:
'The Neighbourhood Revisited: Spatial Polarization and Social Cohesion in Contemporary Sweden'.

I am also currently managing my own VR project on *'Exposure to Swedish society and immigrant integration'*

Previously, I have served as a supervisor for two LSE funded projects, including the organisation and management of a pilot and large-scale survey of Syrian and Iraqi refugees arriving in Greece from 2015-16.

Work as a referee: I have refereed more than 25 articles for journals including:
Advances in Life Course Research, Canadian Journal of Political Science, Demographic Research, European Journal of Population Studies, Genus, International Migration, International Migration Review, Journal of Ethnic and Migration Studies, Population, Population and Development Review, Population Research and Policy Review, Population Space and Place, Population Studies, Population Trends, and Studia Demograficzne
Many of these are summarised on my [publons profile](#)

Research networks: Founder member and editor of *'demotrends'*, a collaborative blog for population researchers
Member of *'research network for the study of migration and fertility'*
Former member of *'European network for the sociological and demographic study of divorce'*

Conference and seminar organisation:

2013	Methodology: multi-level modelling session organiser <i>British Society for Population Studies</i>
2012-2013	Population studies seminar organiser <i>London School of Economics</i>
2012	Methodology: event history session organiser <i>British Society for Population Studies</i>
2012	Families and households strand organiser <i>British Society for Population Studies</i>
2008-2010	Families and households strand organiser <i>British Society for Population Studies</i>
