9	0 (0.0%)
Total	1 (100.0%)

. Description of changes since the previous time the course was given.

Description of changes since the previous time the course was given.

I tried to cover a lot of topics last time. This time I tried to stay close to the notes and was less ambitious.

. What are the course's strong points according to the students (summary based on the numerical results as well as their free text answers)

What are the course's strong points according to the students (summary based on the numerical results as well as their free text answers)

The topic of the course itself and the excitement of learning MHD from the theoretical way.

. What are the course's weak points according to the students (summary based on the numerical results as well as their free text answers)

What are the course's weak points according to the students (summary based on the numerical results as well as their free text answers)

The lecture notes are not latexed, but handwritten and they have typos. I spent too less time on turbulence.

. The teacher's analysis of the course

The teacher's analysis of the course

I had a difficult problem this time. One of the students know quite a lot of the subject and the other not much. Trying to square this circle I introduced some chaos. Unfortunately there is really no book that can serve as a textbook in this course. I need to write one.

. Conclusions as well as suggestions for improvements

Conclusions as well as suggestions for improvements

I need to to write up my notes in the form of a book.
