Publication ethics – authorship, plagiarism and grey zones

Scientific publication involves many ethical grey zones and problematic practices. In this seminar issues such as questionable authorship norms, plagiarism and self-plagiarism will be discussed. Differences between research disciplines will also be highlighted. The seminar starts with a presentation, followed by discussion.

Speaker: Stefan Eriksson, associate professor and senior lecturer in research ethics, Uppsala University

Time and place: 24 Oct 14.00 – 16.00, William-Olssonsalen, Geovetenskapens hus. Register by 22 Oct via link in Staff calendar.
