

Syllabus

for course at advanced level

Education for Sustainable Development
Utbildning för hållbar utveckling

**7.5 Higher Education
Credits**
7.5 ECTS credits

Course code:	PEA473
Valid from:	Autumn 2020
Date of approval:	2020-03-09
Department	Department of Education
Main field:	Education
Specialisation:	A1N - Second cycle, has only first-cycle course/s as entry requirements

Decision

Syllabus approved by the Head of Department after preparations made by Syllabus and Program Working Group at the department of Education.

Prerequisites and special admittance requirements

A degree within the Social Sciences or the Humanities or a Teacher certificate corresponding to at least 180 higher education credits. English level 6 or equivalent.

Course structure

Examination code	Name	Higher Education Credits
ESD0	Education for Sustainable Development	7.5

Course content

The course aims to offer a platform to deepen theoretical understanding and raise critical and practical awareness concerning Education for Sustainable Development (ESD). In order to address the interdisciplinary and intersectional nature of sustainable development, the course content covers global, international and comparative perspectives of ESD.

Learning outcomes

To pass the course, the students should be able to:

- analyse theories and concepts of ESD discourse in relation to international and national policy frameworks,
- analyse and compare the implementation of ESD in various contexts, such as at the school, organisational, or national level.

Education

The course contains compulsory instruction which combines lectures, workshops, discussions and group work to achieve the learning outcomes. Included in the course is compulsory presentation of students own examination as well as critical review of another student's examination task. Students are required to attend 80% of the compulsory course sessions. Student absences of more than 20% of the course sessions must be compensated via additional course assignments.

Forms of examination

The course is examined through individual written assignment.

Beyond a written assignment students must have attended at least 80% of all compulsory course sessions. Students with more than 40% absence from the compulsory course session must retake the course. For further information see the course description.

Student achievement is graded according to a seven grade, criteria referenced scale:

Passing grades (in descending order)

A = Excellent

B = Very Good

C = Good

D = Satisfactory

E = Sufficient

Failing Grades

Fx = Fail, some more work needs to be done

F = Fail, major work needs to be done

The grading criteria for the course is presented in the course description.

To pass the course at least an E grade is required on the written assignment as well as completed opposition.

F and Fx are failing grades. An F grade requires submitting a new examination task, for an Fx grade revisions need to be made within 5 calendar days of receiving the revisions from the examiner, otherwise the student must conduct a new examination task.

Examination tasks which are not submitted by the deadline stated in the course description will not be assessed.

Three examinations must be offered for each course occasion.

A student who has already received the grade E at the exam may not re-take the exam to achieve a higher grade.

A student who has received a failing grade after submitting two new examination tasks for a course or part of a course, has the right to be assigned a new examiner, unless circumstances do not allow. Such requests should be made to the department board/ head of department.

Interim

When a course is no longer offered, students may, once per term, for a period of three terms, be examined according to this syllabus.

Misc

The course is given in English.

Required reading

Course literature is decided and made available two months before the course begins, on the departmental website, www.edu.su.se.
