Field of specialisation

Research areas: Social care, social policy, and gender, primarily elder care and family care for older persons and its social and economic consequences for caregivers. How caregivers are affected by the organization and performance of health and social care services.

Research methods: Qualitative and quantitative data collection and analysis including semi-structured interviews, questionnaires, and policy analysis.

Ongoing and recent projects

- Co-applicant for the research project *The impact of market oriented reforms and management models: Can integrated care mitigate the adverse effects among older people with greater needs?* (Forte, SEK 4 689 000, year 2017-2020, PI Bo Burström, Karolinska institutet). Within this project, I

was responsible for a longitudinal interview study with family members of older persons with extensive care needs in Stockholm County.

- PI for the research project *Coordination problems in health and social care services for older persons with extensive needs: How do adult children perceive the ability of care services to meet the needs of their elderly parents and how are they affected by the performance of these services?* (Stockholm County Council, SEK 1 682 000, year 2017-2019). Longitudinal interview study with adult children of older persons with extensive care needs in Stockholm County.
- Co-applicant for the research project *Changing Places: Unpaid Work in Public Spaces* (Social Sciences and Humanities Research Council of Canada, SEK 1 900 000, year 2017-2019, PI Pat Armstrong, York University, Toronto). A qualitative comparative study of nursing homes in four countries, in which I was responsible for interviews with family members in Swedish nursing homes.
- Financed by the research project *Social Inequalities in Ageing* (Nordforsk, NOK 29.7 million, year 2015-2020; PI Johan Fritzell, Karolinska Institutet). Within this project, I analysed a survey material on informal caregiving.
- Financed by the research programme *Individualised care and universal welfare: Dilemmas in an era of marketisation* (Forte, SEK 18 million, year 2013-2019, PI Marta Szebehely, Stockholm University). Within this programme, I analysed survey materials on giving and receiving informal care.
- Co-applicant for the research project *Cost of caring: care responsibilities and paid work in middle-age* (Swedish Research Council, SEK 3 681 000, year 2011-2013, PI Marta Szebehely, Stockholm University). Interviews with informal carers and a postal survey on informal caregiving in Sweden. I took part in designing, conducting and analysing our postal survey on informal caregiving.
