16	0 (0.0%)
Total	1 (100.0%)
. Description of changes since the previous time the course was given.

Description of changes since the previous time the course was given.

This semester the class was to a large extent moved to online instruction. This changed the interactions between the teacher and students.

. What are the course's strong points according to the students (summary based on the numerical results as well as their free text answers)

What are the course's strong points according to the students (summary based on the numerical results as well as their free text answers)

The flipped classroom approach, in particular the prerecorded lectures [5 students said extremely valuable (5 on a 1-5 scale) , 1 student said 4 on a 1-5 scale].
The in-class exercises.

. What are the course's weak points according to the students (summary based on the numerical results as well as their free text answers)

What are the course's weak points according to the students (summary based on the numerical results as well as their free text answers)

The lab. There was an intention to redo the lab this year, but the diversion to partly-online instruction delayed the development.

The virtual learning (as expected)

. The teacher's analysis of the course

The teacher's analysis of the course

Overall I am happy with the presentation of the course this term, given the circumstances. The move to the Athena online learning platform went well, especially given the large online presence this term.

. Conclusions as well as suggestions for improvements

Conclusions as well as suggestions for improvements

Based on the student evaluations I conclude the course was well received. Replacement of the lab to a more modern application is strongly encouraged for the next offering.
