Module Description

This module aims to support and develop students' academic reading and writing skills in English, focusing on essays in linguistics and English-language literature. Students are trained to become more effective in reading, understanding and using academic texts in writing, for example by working with text structure and academic language.

Intended Learning Outcomes

Upon completion of the course, the student is expected to be able to:

- Choose appropriate strategies for reading and understanding academic texts;
- Effectively use different reading strategies for different reading purposes;
- Use academic English effectively;
- Effectively apply domain-specific conventions in academic writing in linguistics and literature.

Grading

The module adopts the 7-grade SU scale.

To receive a <u>final grade</u>, students must have completed all the examination assignments. Both essays must receive a passing grade for the student to receive a pass on the module. Failing to submit an assignment will result in no grade.

To receive a <u>passing grade</u> (A to E), students must complete all the examination assignments, and demonstrate that they achieved all the learning outcomes at least at the minimum level.

Module Activities

The module consists of the following activities:

- Lectures and seminars. For pre-seminar tasks, see instructions in this and other module documents on Athena/Itslearning.
- Before each lecture and seminar, students are expected to complete all assigned tasks to be able to participate meaningfully.

Module Format

The module will take place in the form of lectures and seminars. The seminars are intended to be active, hands-on opportunities for students to learn and practice academic reading and writing skills that are of relevance to their English Studies. The students, therefore, are expected to bring their texts (readings and their own written drafts) with them to every seminar.

Examination

Students are required to write two argumentative essays, one in linguistics and one in literature, 750-1000 words each. The essays will be based on the following articles as well as other literature (including but not limited to material from the previous ENG 1 modules).

Required reading (available via Athena/Itslearning)

Linguistics articles:

Lehrer, A. (2003). Understanding trendy neologisms. Rivista de Linguistica, 15(2), 369–382.
