The Bolin Centre is a multi-disciplinary consortium of over 350 scientists in Sweden that conducts research and graduate education related to the Earth's climate.

Bolin Centre Climate Arena

The Bolin Centre is starting a new project together with the External Relations Department at SU. The working name for the project is the Bolin Centre Climate Arena. The aim is to learn how to cooperate with actors outside academia. Bolin Centre members are invited to join the working group, please contact bolin@su.se for more information.

Vinnova Call - Competence Centre

The Bolin Centre is considering an application to Vinnova for the purpose of establishing a competence centre, more information about the call is found [HERE»](#). If you are interested in contributing to a working group, please contact the Bolin Centre directorate, alasdair.skelton@geo.su.se or nina.kirchner@natgeo.su.se.

Atmospheric research at the top

A team of atmospheric scientists from the Bolin Centre and Department of Environmental Science and Analytical Chemistry (ACES), is currently taking part in a two month project to measure the composition of the atmosphere at the highest atmospheric research station in the world. The station is situated in the Bolivian Andes at 5 240 meters above sea level. Read more [HERE»](#)
