Bolin Centre for Climate Research

A collaboration between Stockholm University, KTH and SMHI

Week 47, 2018

[Click here to read the letter in your browser](#)

The Bolin Centre is a multi-disciplinary consortium of over 350 scientists in Sweden that conducts research and graduate education related to the Earth's climate.

Thank you for two successful Bolin Days!

The Directors thank all members of the Bolin Centre for contributing to making the 10th Bolin Days a fantastic success. The 2-day celebration of climate science was extremely well attended from start to finish, with excellent talks, posters, scientific discussions and ceilidh dancing. Our special thanks to the organizers and their team who worked enormously hard before, during and after the event, ensuring that everything ran smoothly.

Finally, please do consider signing up as mentors (contact: [Agatha de Boer](#)) and, as stated in the "concluding remarks", we ask you to commemorate the 10th Bolin Days by checking your own individual carbon footprint at [www.klimatkontot.se](http://www.klimatkontot.se) (which is English and Swedish) and taking one action to reduce it.

#### Bolin Days in numbers

- Registered participants: 268
- Live stream followers: 100
- Banquet guests: 140

Alasdair Skelton and Nina Kirchner

## BOLIN CENTRE SEMINARS AND EVENTS

3

DEC

### Bolin Centre Seminar Series | Research Area 7

**Title:** Human-water interactions in changing environments

**Invited speaker:** Professor Giuliano Di Baldassarre, Director, Centre of Natural Hazards & Disaster Science, CNDS, Department of Earth Sciences, Uppsala University

**Time & place:** December 3 at 13h00–14h00, Högbomsalen, Geoscience Building  
Fika will be served
