

Academic Writing Writing Lab

Welcome to Stockholm University's Writing Lab for Doctoral Students! Creating a writing group is a research-based method for increased academic productivity. We will start at 9 am and end at 11 am, and we will write for two units. The sessions for the first half of the spring semester 2023 are posted on the website for Forum for doctoral students (see the calendar). The sessions for the second half of the semester will be posted soon. You can work on research during this time (both reading and writing).

We will provide a supportive environment for joyful academic writing.

Each session begins at 9 am so please arrive early and be ready to start at 9. am. We start with a short "round" where each participant briefly shares what piece of text they are working on. We will have a joint coffee break after one unit. Then we carry on for another unit. We end the session by doing another round where each participant shares their experience. During the writing units we will turn off all external interruptions and do two units of deep work.

Warm welcome!
