

*Tarfala Research Station (TRS) is located at 1135 m asl in the Kebnekaise Mountains, northern Sweden, and is run by Stockholm University. TRS welcomes scientists from all disciplines to conduct research in a unique arctic-alpine environment.*

### New master student grant

The new master student grant is available for master students and its purpose is to cover field work cost at TRS for a master thesis. At TRS you can investigate Swedish alpine and glacial environments, changes caused by the retreating glaciers, the impact these changes have on ecosystems and people, and much more.

The grant sum is 20,000 SEK and will be awarded annually, starting from 2023. The grant shall be used to cover travels to and from TRS, accommodation at TRS and any possible additional field work cost.

All master students, from Swedish or foreign universities, are eligible to apply, regardless of home university, country or research topic. Research topics can cover a wide range of subject areas such as humanities, economics, social sciences, environmental studies, technology, natural sciences etc. The field work at TRS shall be an important part of the master's project.

Deadline for application is **February, 2023**. Applications will be review by the TRS director, station manager and board who together make the final funding decision, and notify all applicants by April 2023. The grant must be used during the 2023 TRS summer season (beginning of July-mid September). Please use the application form found here <https://www.su.se/tarfala-research-station>

### Apply for visit

Would you like to come to TRS next year? Then it is high time to start planning. The station is open from end of March to the beginning of May, and from end of June to mid- September. Read more and apply for your visit here [www.su.se/tarfala-research-station/about-the-station](http://www.su.se/tarfala-research-station/about-the-station).
