## Universities and the 2030 Agenda: taking stock and moving forward

*Date: Wednesday 4th of October 2023*

*Time: 09.00 – 17.00*

*Location: On-site at Aula Magna at SU Frescati Campus and online*

*Language: English*

Sustainability Forum is an annual conference jointly organized by the university alliance Stockholm Trio – Stockholm University, Karolinska Institutet and KTH Royal Institute of Technology. Join us for a hybrid, one-day event titled: **"Universities and the 2030 Agenda: taking stock and moving forward"**. The conference will follow up from of last year's successful Stockholm Trio event - *"Sustainable planet, sustainable health – how science-based solutions can drive transformative change"* - launched in conjunction with the United Nations Stockholm+50 conference.

Halfway through the 2030 Agenda and against the backdrop of the 2023 SDG summit, the theme of the 2023 Stockholm Trio Sustainability Forum revolves around the role of universities and research institutions in evaluating and tracking progress of the 2030 Agenda with less than 7 years left. How can scientific results better support decision-making and policies to achieve the 2030 Agenda? What are the roadblocks to effective implementation of the Sustainable Development Goals (SDGs) and how can conflicts between SDGs be minimized and synergies maximized? How can accountability, legitimacy and participation secure the societal transformation to sustainability in an age of multiple cascading crises on climate change, biodiversity, health, energy and human security?

**Welcome!**
