

## CURRICULUM VITAE - Ian Talland Cousins

Position: Professor  
Affiliation: Department of Environmental Science,  
Stockholm University, SE-10691 Stockholm, Sweden  
Telephone: +46 72 148 9232  
Email: [ian.cousins@aces.su.se](mailto:ian.cousins@aces.su.se)  
Home page: <https://www.aces.su.se/staff/ian-cousins/>

**Research interests:** My research comprises a combination of experimental and modelling approaches to investigate the sources, transport, fate and exposure of contaminants. In recent years, much of my research has focused on per- and polyfluoroalkyl substances (PFAS). I work closely with analytical chemists in our department to better understand the behavior of PFAS, and other substances.

### A. EDUCATION AND EMPLOYMENT

#### EDUCATIONAL QUALIFICATIONS

- Jan. 1995 – Sep. 1998      **Ph.D. in Environmental Science** (full-time, defended 01-09-98), Department of Environmental and Earth Sciences, Lancaster University, UK. Ph.D. thesis: 'Air-soil exchange of persistent organic pollutants'. Supervisor: Distinguished Professor Kevin C. Jones. Fully funded by a contract from the UK Ministry of Agriculture, Fisheries and Food (MAFF). Included two secondments with Professor Donald Mackay at Trent University, Canada (4 months) and with Professor Michael McLachlan at University of Bayreuth, Germany (2 months).
- Sep. 1990 – Jul. 1995      **M.Sc. in Environmental Management** (combination of fulltime (Sep. 1990-Jul. 1991) and part-time (research thesis written while working fulltime at WRc plc), MSc awarded Jul. 1995), University of Surrey, UK. MSc thesis: 'Atmospheric deposition of organic pollutants to UK surface waters'. Supervisor: Dr. Chris D. Watts of WRc plc. Grant to pay tuition fees from WRc plc.
- Oct. 1986 – Jul. 1989      **B.Sc. in Chemistry (with honours)** (full-time, awarded Jul. 1989), Department of Chemistry, University of York, UK. BSc thesis: 'Cold temperature nuclear magnetic resonance (NMR) spectroscopy studies of the restricted rotation of phenyl ligands in ruthenium(II) complexes'. Supervisor: Dr. Roger Mawby (Reader). Full scholarship to pay tuition and living costs from Hampshire County Council.

#### CURRENT EMPLOYMENT

- Apr. 2012 – present      **Professor, Contaminant Chemistry Unit, Department of Environmental Science, Stockholm University, Sweden.** (The Department of Applied Environmental Science (ITM) changed its name to the Department of

Environmental Science and Analytical Chemistry (ACES) in Jan. 2016 and then to the Department of Environmental Science in Jan. 2020).

#### PREVIOUS EMPLOYMENT

- Apr. 2008 – Mar. 2012 **Associate Professor** (“Universitetslektor”), Department of Applied Environmental Science (ITM), Stockholm University, Sweden.
- Jun. 2004 – Mar. 2008 **Assistant Professor** (“Biträdande universitetslektor”), Department of Applied Environmental Science (ITM), Stockholm University, Sweden. (ITM became a department of Stockholm University in Jan. 2005. Prior to that ITM was an independent research institute (Institute of Applied Environmental Research) based on the Stockholm University campus). This was a tenure-track position that I applied for in open competition and was ranked #1.
- Jan. 2002 – May 2004 **Visiting Researcher**, Institute of Applied Environmental Research (ITM), Stockholm, Sweden (awarded title of “**Docent**” affiliated with the Department of Environmental Chemistry at Stockholm University in Oct. 2003 following peer-review of research and an assessed lecture). I was employed as an independent researcher and constructed a model to study the transport and fate of chemicals discharged to Norwegian fjords. During this time, I declined a position as Canada Research Chair in Environmental Modelling at Trent University (an open competition where I was ranked #1).
- Sep. 1998 – Dec. 2001 **Postdoctoral Fellow**, Canadian Environmental Modelling Centre, Trent University, Ontario, Canada. I worked in the research group of Professor Donald Mackay. My main responsibility was to undertake a research contract for the American Chemistry Council (ACC). The contract's objective was to use a modeling approach to estimate the risk to humans from phthalate esters discharged into the environment. I also undertook research on the surface-air exchange of organic compounds, gas-particle partitioning of chemicals and the incorporation of plant compartments to existing multimedia environmental fate models. During this time, I successfully applied for a grant from the Natural Sciences and Engineering Research Council of Canada (NSERC).
- Jan. 1995 – Aug. 1998 **Research Assistant and Ph.D. student** (employed fulltime by the university rather than studying through a scholarship), Department of Environmental and Earth Sciences, Lancaster University, UK. I worked in the research group of Distinguished Professor Kevin Jones. I was responsible for the management of a three-year research contract undertaken for the Ministry of Agriculture, Fisheries and Food (MAFF). The contract's aim was to investigate the environmental behavior of organic contaminants in sludge-amended soils and to assess their potential for transfer to the human food chain. During this time, I undertook a PhD which was based on certain detailed aspects of the research contract.

Jul. 1991 – Dec. 1994

**Environmental Chemist**, Water Research Centre (WRc plc, private company performing research and consultancy for the UK water industry), Medmenham, Henley Road, Marlow, Bucks, UK. The company's clients include the UK government, regulatory bodies and industrial companies (especially in the Water Sector). During my time at WRc I worked in a group studying the transport and fate of chemicals in the environment. I was able to work on and manage a wide variety of projects, which included: field validation of a river quality model; investigating the environmental fate of a solvent used in the nuclear industry; development of Environmental Quality Standards for toxic chemicals; undertaking an audit of the atmospheric emissions from a large water company; assessing the impact of atmospheric deposition of organic pollutants to UK surface waters; development of analytical methods for trace organic pollutants; and the risk assessment of alkyl ethoxylates for a large chemical company. My principal accountabilities included the day-to-day running of projects and their financial management, supervision of technical staff, formulation of proposals, liaising with customers and the preparation of interim and final reports to tight deadlines.

Feb. 1991 – Jun. 1991

**Analytical Chemist**, Thomson Laboratories Ltd (Environmental Consultants), Cosgrove, Milton Keynes, UK. 5-month industrial placement as part of my MSc studies. This placement included routine analysis of organic pollutants and metals in environmental samples and fieldwork, including sampling stack emissions at a waste handling facility, sampling contaminated soil from an old gas works and personal monitoring of workers for chromium VI at a ball bearing manufacturer.

Jan. 1984 – Aug. 1990

Various employment as: kitchen porter in a hotel, cleaner in an apartment store, electrician's assistant, self-employed suspended ceiling fixer, barman, painter and decorator, and gardener.

#### **GAPS IN EDUCATION AND EMPLOYMENT**

Aug. 1989 – Aug. 1990

After graduating with a chemistry degree in July 1989, I took a "gap year" in which I worked in various jobs to save money for my continued education, and travelled in Europe.

Apr. 2004 – Sep. 2010

I took a total of 24-months parental leave to take care of my three children before, and while, they were at daycare. It is customary for both parents to share this responsibility in Sweden.

## **B. TEACHING AND MENTORING**

### **MANDATORY TRAINING IN TEACHING AND SUPERVISION AT STOCKHOLM UNIVERSITY**

- University Pedagogy 1 (3.0 European Credit Transfer Scheme (ECTS) credits) (2006)

- University Pedagogy 2 (5.0 ECTS credits) (2008)
- Course in Supervision and Leadership (2008)

#### **CURRENT RESPONSIBILITY FOR TEACHING COURSES**

- Course leader and principal teacher in 'Pollution Dynamics' (MI7028, 7.5. ECTS). Obligatory course in the Master's Program in Environmental Science: Environmental Toxicology and Chemistry (ES-ETC). Developed the course and have taught it annually from 2022. Currently I also teach in MI7014: Large Scale Challenges to the Climate and the Environment, MI7019: Contaminant Analysis, MI7026: Air Quality - From Emissions to Impacts and MI2009: Miljövetenskaplig metodik ("Scientific Methods in Environmental Science").

#### **PREVIOUS TEACHING RESPONSIBILITIES AT STOCKHOLM UNIVERSITY**

- Course leader and principal teacher in: Environmental Organic Chemistry and Modelling (15 ECTS). It was an obligatory course in the Master's Program in Environmental Science: Environmental Toxicology and Chemistry (ES-ETC). Developed the course that was delivered in 2019, 2020 and 2021.
- Course leader and principal teacher in 'Modelling of Environmental Pollutants' (7.5. ECTS), developed the course and taught it annually between 2007 and 2018. This was one of the first two Ph.D. courses developed in the department.
- Course leader and principal teacher in 'Modelling of Environmental Pollutants II: Applications' (7.5. ECTS), developed the course and taught it annually between 2009 and 2018.
- Developed the course 'Miljöskyddsteknik' ('Environmental Technology') (MI8011, 15 ECTS), was course leader and taught parts of it (in Swedish) in 2018 and 2019.
- In 2010, 2011 and 2018 developed and taught a modelling module in the Masters introductory course, 'Experimental Studies in Environmental Science'.
- In 2006 and 2007, taught a one-week modelling module in the Advanced Level course, 'The Marine Environment'.
- Developed and taught a one-week module (part of a 7.5 ECTS credit course) at Umeå University in the Advanced Level course, 'Intermedia Transport Processes and Multimedia Modelling' annually between 2000 and 2005.
- Developed and taught short 'modelling' courses to professionals (academics, consultants, regulators etc.) at two SETAC North America conferences (in Philadelphia, November 1999 and Baltimore, November 2001) and in three EU projects (the NOMIRACLE project in Antwerp, Belgium, September 2006, the PERFOOD project in Rome, Italy in January 2012) and the INFLAME project in Stockholm in April 2012).
- Developed and taught a course in 'Management of a PhD Project and Research Ethics' as part of the PERFORCE3 project in October 2020.
- Prepared and taught lectures in 'Environmental Modelling' between 2005 and 2011 in the course, 'Introduction to Environmental Science for Natural Scientists' (30 ECTS). Part of the team who developed the course.
- I have taught multiple lectures in various courses at Stockholm University over the years.

#### **POSTDOCTORAL RESEARCHERS UNDER MY MAIN SUPERVISION**

- Kostantinos Prevedouros (Oct. 2004 – Dec. 2007). Funded by the FP6 EU project ALARM and an individual Marie Curie Fellowship (RAMSES). After postdoctoral work in my group, Kostantinos European Chemicals Agency (ECHA) in Helsinki, Finland and is now a Senior Scientific Officer.
- Amaya Franco (Jan. 2006 – Dec. 2006). Funded by the Universidade de Santiago de Compostela. After

postdoctoral research in my group, Amaya returned to Spain and is now Professor at the Universidade de Santiago de Compostela, Spain.

- Emma Undeman (Jan. 2011 – Feb. 2016). Funded by the Baltic Ecosystem Adaptive Management (BEAM) funding scheme. After working as a “Forskarassistent” in my group, Emma became a Researcher at the Baltic Sea Centre at Stockholm University, Stockholm Sweden and is currently a Case Officer at the Swedish Environment Agency in Stockholm, Sweden.
- Francis Orata (Jun. 2011 – Aug. 2012). Funded by the EU FP7 project PERFOOD. After his postdoctoral work, Francis returned to Kenya and is currently Professor and Director of Research and Postgraduate Support, Department of Pure and Applied Chemistry, Masinde Muliro University of Science and Technology, Nairobi, Kenya. He was previously Head of the Department (2014-2020).
- Fiona Wong (Oct. 2011 – Oct. 2015). Funded by the EU ITN project INFLAME. After her postdoctoral work at Stockholm University, Fiona was employed at Environment Canada and Climate Change and is currently a Senior Scientist.
- Robin Vestergren (Jan. 2012 – Dec. 2016). Funded by the EU FP7 project PERFOOD and the Swedish Research Council Formas (CEEP project). After completing postdoctoral research in my group, Robin undertook further postdoctoral research at the State Key Laboratory of Environmental Chemistry and Ecotoxicology in Beijing, China and at the Norwegian Institute for Air Research (NILU), Tromsø, Norway. He declined a Lecturer position at University of Birmingham in the UK and instead became a Researcher and Consultant at IVL Swedish Environmental Research Institute in Stockholm. He is currently working as Investigator at the Swedish Chemicals Agency, Stockholm, Sweden.
- Deguo Kong (Jan. 2014 – Feb. 2015). Funded by the EU FP7 project SOLUTIONS. After a brief postdoc in my group, Deguo worked as a consultant and researcher at IVL Swedish Environmental Research Institute for 1 year and then worked as a Senior R&D Engineer and Sales Manager for Asia for Labina AB, Stockholm for several years. He then started his own business, studied for an MBA at Stockholm University and currently is a Supplier Compliance Manager at Nokia Bell in China.
- Claudia Lindim (Apr. 2014 – Aug. 2017). Funded by the EU FP7 project SOLUTIONS. After her postdoc, Claudia became an Environmental Modeler at Unilever in the UK and is currently employed as a Scientific Regulatory Expert on Environmental Fate at SynTech Research in Germany. **Awarded the King Carl XVI Gustaf 50-year Foundation for Science, Technology and Environment prize (85,000 Swedish kronor) in 2016 (nominated by me).**
- Anne Sørensen (Aug. 2014 – Dec. 2019). Funded by the Danish Research Council and the Swedish Research Council Formas. After her postdoc, Anne started employment as a Curator/Researcher at the Swedish Museum of Natural History in Stockholm, Sweden.
- Marko Filipovic (Jun. 2015 – Nov. 2015). Funded by the Swedish Research Council Formas (CEEP project). After his postdoc, Marko became an Environmental Consultant at Niras in Stockholm, worked at the Department of Defence and then co-founded his own consultancy company, Sellén & Filipovic AB, Sweden.
- Ioannis Liagkouridis (Jun. 2017 – Dec. 2019). Funded by the Stockholm County Council (SUPFES-Health project). After his postdoc, Giannis started employment as a consultant and researcher at IVL Swedish Environmental Research Institute, Stockholm, Sweden.
- Jana Johansson (Jul. 2017 – Jul. 2020). Funded by the Swedish Research Council Vetenskapsrådet. During her postdoc, Jana successfully obtained a Mobility Grant for Early-Career Researchers from Formas. Now an Assistant Professor at Linköping University. **Awarded the King Carl XVI Gustaf 50-year Foundation for Science, Technology and Environment prize (100,000 Swedish kronor) in 2020**

**(nominated by me).** Jana is now an Associate Professor at Linköping University.

- Shuhong Fang (Sep. 2018 – Aug. 2019). Funded by a China Council Scholarship. She is now an Associate Professor at Chengdu University, China.
- Steffen Schellenberger (Jun. 2019 – Nov. 2019). Funded by the Stockholm County Council (SUPFES-Health project). He is now an Environmental Engineer at RISE IVF in Sweden.
- Bo Sha (Mar. 2022 – Feb. 2025). Funded by the Swedish Research Council Vetenskapsrådet.

#### DOCTORAL STUDENTS UNDER MY MAIN ACADEMIC SUPERVISION

- James Armitage (Oct. 2004 – Mar. 2009), Modelling the Global Fate and Transport of Perfluoroalkylated Substances (PFAS). Ph.D. defense: 27-03-09. Funded by EU 6FP NOMIRACLE project. **Awarded the Sigrid Arrhenius Stipend (65,000 Swedish kronor for the best Ph.D. thesis in the Science Faculty of Stockholm University) in 2009.** After graduation, James undertook postdoctoral work at the University of Toronto in Canada and is now an Environmental Consultant at Arnot Research and Consultancy in Canada.
- Erick Nfon (Apr. 2005 – Apr. 2009), Tools for Evaluating the Fate and Bioaccumulation of Organic Compounds in Aquatic Ecosystems. Ph.D. defense: 24-04-09. Funded by the Swedish Research Council Formas. After graduation, Erick became a Regulatory Affairs Scientist at Smithers Viscient (ESG) Ltd in the UK. He now works as a Principal Environmental Risk Assessor at The Janssen Pharmaceutical Companies of Johnson & Johnson.
- Robin Vestergren (Apr. 2007 – Dec. 2011), Human exposure to perfluoroalkyl acids. Ph.D. defense: 02-12-11. Funded by the EU FP7 PERFOOD project and the DuPont Company. See above for career progression.
- Deguo Kong (Sep. 2009 – Dec. 2013), Confronting new challenges in chemical assessment. Ph.D. defense: 13-12-13. Funded by the EU FP7 ArcRisk project. See above for career progression.
- Ioannis Liagkouridis (Jan. 2012 – Apr. 2016), Indoor emissions of flame retardants. Ph.D. defense: 08-04-16. Funded by the EU ITN INFLAME project. See above for career progression.
- Thuy Bui (Sep. 2013 – Aug. 2017) Assessing human exposure to phthalates, alternative plasticizers and organophosphate esters. Ph.D. defense: 01-06-17. Funded by the EU ITN A-TEAM project. After graduation, Thuy became a postdoctoral fellow in Prof. Christina Rudén's research group in our department before being appointed Regulatory Affair Manager at Prosacon GmbH in Hofheim am Taunus, Hesse, Germany.
- Jana Johansson (Nov. 2012 – Jun. 2017) Sources, transport and fate of perfluoroalkyl acids in the atmosphere. Ph.D. defense: 09-06-17. Funded by the Swedish Research Council Formas. **Jana was awarded the Early Career Scientists' (ECS) aerosologist award for the outstanding Ph.D. thesis of 2017. Awarded by the Nordic Society of Aerosol Research (NOSA).** See above for career progression.
- Melissa Gomis (Apr. 2013 – Apr. 2017) From emission sources to human tissues: modelling the exposure to per- and polyfluoroalkyl substances. Ph.D. defense: 12-05-17. Funded by the EU ITN A-TEAM project. After graduation, Melissa became a Graphics/information Officer and later Scientific Officer and Senior Science Officer for the Intergovernmental Panel of Climate Change (IPCC) in Paris, France. **Melissa was coordinator of the IPCC 's sixth assessment report.** She now works as a Senior Consultant at EA – Earth Action, Geneva, Switzerland, focusing on plastics pollution.
- Kerstin Winkens (Jun. 2013 – Mar. 2018) Estimating Children's Exposure to Per- and Polyfluoroalkyl Substances. Ph.D. defense: 16-03-18. Funded by the Swedish Research Council Formas. Worked first at the Swedish Museum of Natural History in Stockholm and now Head of Risk Assessment at IVL Swedish Environmental Research Institute in Stockholm, Sweden.

- Steffen Schellenberger (Apr. 2014 – Jun. 2019) The missing links: Towards an informed substitution of durable water-repellent chemicals for textiles. PhD defense: 13-06-19. Funded by the Swedish Research Council Formas. See above for career progression.
- Bo Sha (Aug. 2017 – Mar. 2022) Transport of perfluoroalkyl acids from the ocean to the atmosphere on sea spray aerosol. PhD defense: 25-03-22. Funded by the Swedish Research Council Formas. See above for career progression. **Bo's thesis was voted the best PhD thesis in the Department of Environmental Science and the Section for Geological and Environmental Science for 2022.**
- Nikola Radoman (Dec. 2017 – Dec. 2022) Enrichment of biogenic and anthropogenic organic substances on sea spray aerosols. PhD defense: 16-12-22. Funded by a competitive internal grant obtained from the Department of Environmental Science, Stockholm University. Now an Analytical Chemist at Ardena Södertälje AB in Södertälje, Sweden.
- Joost Dalmijn (Sep. 2020 – Sep. 2024) Sources, transport and fate of PFAS in the atmosphere. Funded by the EU ITN PERFORCE3 project.
- Romain Figuière (Oct. 2021 – Sep. 2025) Substitution of PFAS through application of the essential-use concept. Funded by the European Commission Horizon 2020, ZeroPM project.
- Luc Miaz (Oct. 2021 – Sep. 2025) Grouping of PFAS. Funded by the European Commission Horizon 2020, ZeroPM project.
- Eleni Savvidou (Oct. 2021 – Sep. 2025) Identifying PFAS in certain uses and replacing them. Funded by the Swedish Research Council Formas.

#### **DOCTORAL STUDENTS UNDER MY SO-SUPERVISION (DATE OF THESIS DEFENSE IN BRACKETS)**

- Kim Hultin (2010) (now an Analyst at Stockholm County Council, Sweden), Elena Krillova (2013) (now a Research Engineer in our department), Caroline Ek (2016) (now a Curator at the Swedish Museum of Natural History in Stockholm, Sweden), Hong Yan (2016) (now a secondary school science teacher in China), Kim Dahlgren-Strååt (2017: licentiate) (now an Environmental Consultant at Sweco Environment AB, Stockholm, Sweden), Pingping Meng (2019) (now an Assistant Professor at East Carolina University, US), Malte Posseit (2020) **Awarded the Sigrid Arrhenius Stipend (45,000 Swedish kronor for the best Ph.D. thesis in the Science Faculty of Stockholm University) in 2020.** Now an Assistant Professor in our department, Inés Rodríguez Leal (2022: licentiate), John Hader (2023: now a postdoctoral fellow at EMPA, Zurich, Switzerland) **Won the Science Slam at the SETAC Europe conference 2023**, Shahla Namazkar (2023: licentiate), Zongzhe He (2023), Melanie Lauria (ongoing), Xiaoyu Zhang (ongoing).

#### **MASTER'S STUDENTS UNDER MY SUPERVISION OR CO-SUPERVISION (DATE OF THESIS DEFENSE IN BRACKETS)**

- Claudia Teichmann (1997) (now a Senior Scientist at Greenpeace in Hamburg, Germany), Heidi Kreibich (1997) (now a Professor and Group Leader at the German Research Centre for Geosciences, in Potsdam, Germany), Todd Gouin (2001) (worked as an Associate Professor at University of Alaska Fairbanks and at Unilever in the UK before joining Arnot Research and Consultancy and later setting up his own consultancy company), Rebecca Alli (2005) (now an Engineer at Gray and Osborne Ltd., Seattle, US), Ingrid Sundholm (2005) (now a Process Consultant at More Research in Örnsköldsvik, Sweden), Zhe Li (2011) (after completing a PhD and postdoc at ACES she is now a Research Engineer in our department), Van Anh Le (2011) (now a PhD candidate and Artificial Intelligence Associate Lecturer at RMIT University, Vietnam), Jana Johansson (2012) (undertook a Ph.D. and postdoctoral fellowship in my group and now Associate Professor at Linköping University, Sweden), Fabian Balk (2018) (got a PhD at Eawag in Zurich under the supervision of Juliane Hollender and now works at the Ecotox Centre in Zurich), Julia Zhou (2019) (now working for Svenskt Vatten in Stockholm,

Sweden), Eleni Savvidou (2021) (now a PhD student in my group), Aleksandra Kwick (2021) (now an Environmental Health Officer for Stockholm City, Sweden), Julia Shafer (2022) (now working as a consultant at Axö Consulting, Örebro, Sweden), Eliana Ungerovich (2022) (now working as a consultant at Merlin & Metis, Stockholm, Sweden), Danis Talipov (2022) (worked as a Process Engineer at Northvolt in Skellefteå, Sweden and currently a Process Engineer at AFRY in Stockholm), Amanda Rensmo (2023) (**Prize from Avfall Sverige for the best MSc thesis of 2023**) (currently an Energy Consultant at WSP, Uppsala, Sweden), Sofia Lagnefeldt (2023) (currently an Environmental Consultant at Sweco in Stockholm).

#### **BACHELOR THESIS STUDENTS UNDER MY SUPERVISION (DATE OF THESIS DEFENSE IN BRACKETS)**

- Jana Johansson (2009) (later undertook a Ph.D. in my group, see above for info on career progression), Jessica Shahin (ongoing).

#### **C. PUBLICATIONS IN VARIOUS MEDIA**

##### **CITATION METRICS**

- Clarivate Analytics Web of Science citation report (all databases) 16/03/24: 205 contributions listed, 20 018 citations, 97.65 citations per contribution, h-index = 67.
- Elsevier Scopus citation report 16/03/24: 199 contributions listed, 19 527 citations, h-index = 68.
- Google Scholar citation report 16/03/24: 27 220 citations, h-index = 78, i10 index = 176.

INVITED PRESENTATIONS, LECTURES, WEBINARS AND SPEECHES

1. Cousins, I.T. (1992) Environmental fate modelling. Invited platform presentation at the National Rivers Authority Symposium on Chemical Contaminants R&D, 2 June 1992, High Wycombe, UK.
2. Cousins, I. T. (1994) Predicting environmental fate and behaviour of substances using fugacity models. Invited keynote speaker at the National Rivers Authority Symposium on the Impact of Substances on the Aquatic Environment. 6-7 June 1994, WRc plc, Medmenham, UK.
3. Cousins, I.T., Mackay, D. and Jones, K.C. (1998) Measuring and modelling the vertical distribution of PCBs and PAHs in soils. Invited keynote speaker at the International Conference on the Sources, Fates and Effects of Persistent Organic Pollutants (POPs), 28-29 April, 1998, Lancaster University, UK.
4. Cousins, I.T. and Mackay, D. (1999) Recent developments in environmental modelling at Trent University, Canada. Invited keynote speaker at the NATO Advanced Research Workshop (ARW) on Modelling of Environmental Chemical Exposure and Risk in Sofia, Bulgaria, 4-8 October, organized by the NATO Science Program.
5. Cousins, I.T., Palm, A. and Mackay, D. (2001) Physical-chemical properties and environmental fate modelling of PBDEs. Invited keynote speaker at the Third Annual Workshop on Brominated Flame-Retardants in the Environment, August 23-24, 2001, Canada, Centre For Inland Waters, Burlington, Ontario, Canada.
6. Cousins, I.T. and Mackay, D. (2001) The use of models for estimating half-lives and persistence. Invited keynote speaker at the CEFIC/ECETOC Long-Range Research Initiative Scientific Workshop, 'Degradation of chemicals in the environment and prediction of persistence', October 16-17, 2001, Paris, France.
7. Cousins, I.T., Palm, A., Gustafsson, Ö, Axelman, J., Grunder, K., Broman, D. and Brorström-Lundén, E. (2003) A multi-flux mass balance of measured POP fluxes on the Swedish west coast. Invited keynote speaker at the Nordic Environmental Chemistry Winter Meeting, 12-14 March, Storlien, Sweden.
8. Cousins, I.T. (2010) Global Sources and modeling of PFCAs and PFOS. Invited keynote speaker at the 2<sup>nd</sup> International Workshop on New Developments in Fluorinated Surfactants, 17<sup>th</sup>-19<sup>th</sup> June, Idstein, Germany.
9. Cousins, I.T. (2010) Modeling the fate and exposure of perfluorinated alkyl acids. Invited keynote speaker at PacifChem 2010, The International Chemical Congress of Pacific Basin Societies, Honolulu, Hawaii, December 15<sup>th</sup>-20<sup>th</sup>.
10. Cousins, I.T., Kong, D. and Vestergren R. (2011) Impact of Climate Change on Exposure to POPs of Wildlife and Humans. Invited keynote speaker at The Arctic as a Messenger for Global Processes – Climate Change and Pollution. University of Copenhagen, 4-6 May.
11. Cousins, I.T. (2012) State-of-the-art in research on per- and polyfluoroalkyl substances and future outlook. Invited keynote speaker at 4th International Workshop: Per- and polyfluorinated alkyl substances – PFAS. November 7-9, Idstein, Germany.
12. Cousins, I.T. (2013) Environmental and human exposure assessments for per- and polyfluoroalkyl substances: modelling approaches. Invited keynote speaker at 6th Late Summer Workshop "Micropollutants in the water cycle", Schloss Maurach, Lake Constance, Germany.
13. Cousins, I.T., Wang, Z., Scheringer, M., Hungerbühler, K. (2014) An overview of the available data for performing risk assessments of fluorinated alternatives to long-chain perfluoroalkyl acids (PFAAs) and their precursors. Invited keynote speaker at the 6th International Workshop on Per- and Polyfluorinated Alkyl Substances – PFAS, June 15-18, Idstein, Germany.
14. Cousins, I.T. (2015) Fluorinated alternatives to long-chain PFAS: What we know about them and proposals for how they should be managed and regulated. Invited keynote speaker at: An international symposium on fluorinated organics in the environment, FLUOROS 2015, Golden, Colorado, USA.

15. Cousins, I.T. (2016) Perfluorinated chemicals –A global chemicals management issue in the need of global agreement? Invited speaker and panelist (in Panel 2), Helsinki Chemicals Forum, Helsinki, Finland, 26 May, 2016.
16. Cousins, I.T. (2019) The concept of essential use for determining when uses of PFASs can be phased out. Invited presentation at the 11<sup>th</sup> Network Meeting on Highly Fluorinated Substances, 9 May, Stockholm University, Stockholm.
17. Cousins, I.T., Wang Z. (2019) Toward a Systematic Characterization and Categorization of PFAS. Invited keynote speaker at the SETAC North America Focused Topic Meeting: Environmental Risk Assessment of PFAS. 12-15 August 2019, Durham, North Carolina, USA.
18. Cousins, I.T. (2019) State of the science of the fate and transport of PFAS. Invited keynote speaker at the International CleanUp Conference 2019, 8-12 September 2019, Adelaide, Australia.
19. Cousins, I.T. (2020) PFAS pollution, from the arctic to the equator. Invited keynote speaker at a workshop on “Monitoring of PFAS in water and other media” commissioned by the Directorate General Environment of the European Commission. 13-14 January 2020, Brussels, Belgium.
20. Cousins, I.T. (2020) Strategies for grouping PFAS. Invited webinar jointly given to Jennifer Field’s (Oregon State University) and Chris Higgins’ (Colorado School of Mines) Research Labs, May 14, 2020, Online.
21. Cousins, I.T., DeWitt, J.C., Glüge, J., Goldenman, G., Herzke, D., Lohmann, R., Miller, M., Ng, C.A., Scheringer, M., Vierke, L., Wang, Z. (2020) Strategies for grouping per- and polyfluoroalkyl substances. Invited presentation in a webinar organized by The Baltic Leadership Programme on PFAS, June 9, 2020.
22. Cousins, I.T. (2020) PERFORCE3 Invited to speak at, lead and moderate a webinar on PFAS and the Essential Use Concept. Guest presentation by Martin Scheringer (ETH Zurich) and panel discussion between: Stephen Korzeniowski (ATCS & PFP), Anna Lennquist (ChemSec), Jenny Ivarsson (Kemli), and Joel Tickner (Zuckerberg College of Health Sciences, UMass Lowell). September 17, 2020, Online. Recording available at: <https://www.aces.su.se/events/aces-seminar-series-panel-discussion-on-pfas-and-the-essential-use-concept/>.
23. Cousins, I.T., DeWitt, J.C., Glüge, J., Goldenman, G., Herzke, D., Lohmann, R., Miller, M., Ng, C.A., Scheringer, M., Vierke, L., Wang, Z. (2020) Strategies for grouping per- and polyfluoroalkyl substances. Invited presentation at a webinar organized by the North Carolina Secretaries' Science Advisory Board, October 5, 2020, Online.
24. Cousins, I.T. (2020) PFAS and the Essentiality Concept. Invited keynote speaker at the online conference: PFAS in Our World: What We Know and What We Can Do. Virtual Conference, October 13, 2020. Hosted by the University of Rhode Island. Recording online at: <https://www.youtube.com/watch?v=PBFo8PaI0>.
25. Cousins, I.T. (2020) The essential use concept: Practical application for phasing out hazardous substances. Invited keynote speaker at the online international workshop: “Improving the chemical safety of food contact articles: Linking policy-making with scientific research”, organized by the Food Packaging Forum, October 23, 2020. Recording online at: [https://www.youtube.com/watch?v=XeIPbt\\_34W0](https://www.youtube.com/watch?v=XeIPbt_34W0).
26. Cousins, I.T., Scheringer, M. (2020) Applying the concept of essential use to PFAS: Experiences, challenges and next steps. Invited webinar hosted by Silke Gabbert, RIVM, Centre for Safety of Substances and Products, The Netherlands, 26 October, 2020.
27. Cousins, I.T. (2020) The essential use concept: Introduction and potential application to endocrine disrupting chemicals. Invited presentation at the Ministry of Environment Japan (MOEJ) and UK’s Department for Environment, Food and Rural Affairs (Defra) sponsored annual webinar on endocrine disrupting chemicals. October 27, 2020.
28. Cousins, I.T. (2020) Overview of risk assessment approaches for mixtures. Invited keynote speaker

- at SOILveR Online PFAS Contaminated Sites Risk Assessment workshop, November 9, 2020.
29. Cousins, I.T. (2020) PTFE from a life cycle perspective and essential uses. Invited presentation at the webinar: PTFE in bike chain lubricating oils. Organized by RISE (Research Institutes of Sweden), December 3, 2020.
  30. Cousins, I.T. (2020) EU's Chemicals Strategy and Essential Use, Invited presentation at Baltic Breakfast webinar: the new EU Chemicals Strategy – will it deliver? 9 December 2020.
  31. Cousins, I.T., Herzke, D. (2020) Academic perspective on the concept of 'essential uses'. Invited presentation at a virtual webinar on 'Essential Uses' of PFASs in the EU, Organized by Chemical Watch, December 3, 2020.
  32. Cousins, I.T. (2021) An introduction to the essential use concept and application to PFAS. Invited webinar by Collaborative on Health and the Environment, California, US, January 13, 2021. Recording online at: <https://www.healthandenvironment.org/webinars/96554>.
  33. Cousins, I.T. (2021) The essential use concept, a tool for guiding the phase out of PFAS. Invited keynote speaker at the MilieuChemTox Symposium "Green deal or no deal?", Online, January 21, 2021.
  34. Cousins, I.T. (2021) PTFE ur ett livscykelperspektiv samt essentiell och icke-essentiell användning. Invited webinar at the meeting on "PFAS i nonstick-beläggningar – en risk för människa och miljö?" organised by RISE as part of the POPFREE project, Online, 25 March, 2021.
  35. Cousins, I.T. (2021) Sources, transport and fate of various PFAS in the atmosphere. Invited keynote at the Thematic Webinar on PFASs, French Fluorine Network, Online, March 16, 2021.
  36. Cousins, I.T. (2021) Sources, transport and fate of various PFAS in the atmosphere. Opening keynote at the CleanUp Emerging Contaminants Virtual Symposium 2021, Online, March 24, 2021.
  37. Cousins, I.T. (2021) Strategies for Grouping PFAS for Chemical Assessment: An Update. Invited webinar at Michigan State University, online, 1 April, 2021.
  38. Cousins, I.T. (2021) The diversity of PFAS. Invited presentation at a PFAS workshop organized by the UK Environment Agency, 27-28 April, 2021.
  39. Cousins, I.T. (2021) Consideration of possible grouping approaches and essential uses. Invited presentation at a PFAS workshop organized by the UK Environment Agency, 27-28 April, 2021.
  40. Cousins, I.T. (2021) Sources, transport and fate of PFAS in the atmosphere. Invited webinar at the College of Environmental Science and Engineering, Nankai University, China, 6 May 2021.
  41. Cousins, I.T. (2021) The concept of essential use for determining when uses of per- and polyfluoroalkyl substances (PFAS) can be phased out. Invited webinar at the Svensk Förening för Toxikologi (SFT), 9 September, 2021.
  42. Cousins, I.T. (2021) The concept of essential use: successes and challenges. Invited webinar and panel discussion at Eurometaux - bi-annual "chemicals management week", 28 September, 2021.
  43. Cousins, I.T. (2021) An overview of the PERFORCE3 project. Invited presentation at the International workshop on new research outcomes on PFAS use, human exposure and waste handling. Norwegian Institute for Air Research, NILU, Tromsø, Norway, 1 October, 2021 (hybrid event).
  44. Cousins, I.T. (2021) Are fluoropolymers polymers of low concern? Invited keynote at FLUOROS Global 2021, Providence, Rhode Island, US (hybrid event), October 4, 2021.
  45. Cousins, I.T. (2021) Essential use and substitution of hazardous chemicals, Baltic Breakfast, Invited webinar hosted by the Baltic Sea Centre, Stockholm University, 26<sup>th</sup> October, 2021.
  46. Cousins, I.T. (2021) Strategies for grouping PFAS to protect human and environmental health. Invited keynote at Dioxin 2021, 41<sup>st</sup> International Symposium on Halogenated Persistent Organic Pollutants, 8-11 November, Tianjin, China.
  47. Cousins, I.T. (2022) What are PFAS and why bother? Towards PFAS-free kitchenware. Invited webinar organized within the POPFREE Industry project, coordinated by RISE, 20<sup>th</sup> January, 2022. Recording online at: <https://www.ri.se/en/event/towards-pfas-free-kitchenware>.

48. Cousins, I.T. (2022) The concept of essential use for PFAS. Invited keynote lecture at the Kemikaliegruppens stormöte (online). RISE Research Institutes of Sweden, 10 March 2022, Sweden.
49. Cousins, I.T. (2022) PFAS in firefighting foam: transport, fate and human exposure. Invited keynote lecture at PIC2022 – 17th International Congress on Combustion By-Products and Their Health Effects, 10 May, Preston, UK.
50. Cousins, I.T. (2022) Essential use within the regulatory framework: scientific considerations. Invited keynote speaker at the Workshop organized by Royal Society of Chemistry, Department of Environment, Food and Rural Affairs, Chemical Industries Association and FIDRA. When the science is uncertain, what is the role of risk-based approaches and precautionary control in chemicals policy? 9 June, London, UK.
51. Cousins, I.T. (2022) Essential use. Invited ZeroPM lunchtime webinar. Available on YouTube at <https://www.youtube.com/watch?v=PRyfb8bSHLo&t=27s>, 13 June, 2022.
52. Cousins, I.T. (2022) Strategies for grouping PFAS based on intrinsic properties. Invited keynote speaker at the Committee on Toxicology, 2022 Annual Meeting, July 2021, Hybrid: Washington, D.C. and Virtual.
53. Cousins, I.T. (2022) Outside the safe operating space of a new planetary boundary for PFAS. Invited webinar presented at the Green Science Policy Initiative PFAS meeting, 7 September 2022 (online).
54. Cousins, I.T. (2022) Outside the safe operating space of a new planetary boundary for PFAS. Webinar presented to the PFAS Task Force, Eureau (the European Federation of National Associations of Water Services), 13 September 2022 (online).
55. Cousins, I.T. (2022) Per- and polyfluoroalkyl substances as a class: relevant chemistry and properties. Invited keynote presentation at the ISES (International Society of Exposure Science) 2022 Annual Meeting, Lisbon, Portugal, 25-29 September 2022.
56. Cousins, I.T. (2022) Session 10: Fluoropolymer lifecycle considerations: a reason for concern? Europe's PFAS problem: situation briefings by independent experts, Invited webinar organized by the European Environmental Bureau, 29 September 2022.
57. Cousins, I.T. (2022) Outside the safe operating space of a new planetary boundary for PFAS. Invited webinar presented in the Collaborative on Health and the Environment (CHE) Webinar Series. California, USA, 6 October 2022.
58. Cousins, I.T. (2022) Outside the safe operating space of a new planetary boundary for PFAS. Invited presentation at 16<sup>th</sup> Swedish PFAS Network Meeting, 22 November 2022, Stockholm University, Sweden.
59. Cousins, I.T. (2022) PFAS in sea spray aerosols. Invited keynote speaker at the 1st Nordic-Baltic PFAS Conference. 13-15 December, Borås, Sweden.
60. Cousins, I.T. (2023) Invited speech "Calling on the UK government to protect the environment with a strong chemicals strategy, including a ban on all non-essential uses of PFAS" at "The poisons in our ocean impacting marine life: how to address PFAS and other harmful chemicals in our seas", Hosted by: Kerry McCarthy MP on behalf of Marine Conservation Society & CHEM Trust, Thames Pavilion, UK Houses of Parliament, Westminster, London, 17 January, 2023.
61. Cousins, I.T. (2023) Approaches for tackling the planetary boundary for chemical pollution. Invited keynote at the Norwegian Environmental Chemistry Symposium (NECS), 30 January – 1 February, Vestlia Resort, Geilo, Norway.
62. Cousins, I.T. (2023) Prevention through chemical alternatives. Invited presentation at the ZeroPM "Prevention Workshop": Achieving Zero Pollution of Persistent and Mobile Substances. Prevention through chemical alternatives, policy action and market transition., 7-8 February, Lindholmen Conference Centre, Gothenburg, Sweden.
63. Cousins, I.T. (2023) Approaches for tackling the planetary boundary for chemical pollution. Invited webinar in EDGE Lecture Series at the University of Vienna, 9 March 2023.

64. Cousins, I.T. (2023) Outside the Safe Operating Space of a New Planetary Boundary for Per- and Polyfluoroalkyl Substances (PFAS) Invited webinar to the NIEH (National Institute of Environmental Health Sciences) PFAS Analytical Networking Group, 13 March 2023.
65. Cousins, I.T. (2023) Introduction to fluorinated POPs (PFOS, PFOA, PFHxS and other PFAS) related to polymers and plastics. IPCP Webinar Series: POPs in plastic and monitoring approaches. Invited webinar jointly hosted by the United Nations Environment Programme (UNEP), the Global Environment Facility (GEF) and the International Panel on Chemical Pollution (IPCP). 24-25 April 2023.
66. Cousins, I.T. (2023) PFAS in the atmosphere: understanding sources, transport and fate processes. Invited lecture at Nanjing Agricultural University, Nanjing, Jiangsu province, China, 7 June 2023.
67. Cousins, I.T. (2023) Impacts of marine aerosol transport of PFAS to land. Invited keynote lecture at The National Climate Summit, Klimatorium, Denmark's International Climate Center, Lemvig, Denmark, 16-17 August, 2023.
68. Cousins, I.T. (2023) An overview of the PERFORCE3 project. Invited keynote presentation as the PERFORCE3 PFAS Symposium, Idstein, Germany, 30 August 2023.
69. Cousins, I. T. and Salter, M.E. (2023) Baltic Breakfast: The sea as a source of PFAS. Invited seminar/webinar. Scandic Klara Hotel and online. 20 September 2023.
70. Cousins, I.T. (2023) PFAS in Lithium-ion batteries. Invited presentation at The Toxicology Council quarterly meeting, Swedish Chemicals Agency, Stockholm, Sweden, 20 September, 2023.
71. Cousins, I.T. (2023) Uses of PFAS and their alternatives: Cases studies for uses of fluoropolymers and fluorinated gases. Invited keynote presentation in the session 'Everything, Everywhere, All at Once': PFAS. At "Occupational and Environmental Health in the 21st Century: Strategies for Confronting a Global Crisis", Bologna, Italy, 24 October, 2023.
72. Cousins, I.T. (2023) Why is high environmental persistence a problem? Considering trifluoroacetic acid (TFA) and other examples. Joint ATMOSphere and Green Cooling Initiative event at the 35<sup>th</sup> Meeting of the Parties to the United Nation Montreal Protocol. Nairobi, Kenya. United Nation Environment Programme Headquarters, room CR-10, 25 October, 2023.
73. Cousins, I.T. (2023) The sea as a secondary source of PFAS. Invited seminar at the Department of Biological and Chemical Engineering at Aarhus University, Denmark, 5 December, 2023.
74. Cousins, I.T. (2023) Alternatives to the many uses of PFAS: overview and case studies. Invited webinar at the University of Auckland, New Zealand, 13 December, 2023.
75. Cousins, I.T. (2024) Alternatives to PFAS. Invited keynote lecture at the Seminar on Sustainable Alternatives to PFAS for European Commission and Agency Staff, Centre Borschette, Brussels, Belgium, 30 January, 2024.
76. Cousins, I.T. (2024) PFAS and their alternatives. Invited keynote lecture at the Australasian Land & Groundwater Association (ALGA) Symposium: PFAS Management into the Future, Sydney, Australia, 14 March, 2024.
77. Cousins, I.T. (2024) How does society want substances of concern and products managed and what is it ready to substitute – using the example of PFAS? Invited keynote lecture at the Chemical Watch Regulatory Summit Europe 2024, Brussels + Virtual, Belgium, 25-26 April, 2024.
78. Cousins, I.T. (2024) Alternatives to PFAS. Invited keynote at the Conference on Tomorrow's Chemicals Policy: Perspectives and Challenges. Hosted in the context of the Belgian Presidency by the FPS Health, Food chain safety and Environment. SQUARE Brussels Meeting Centre, Brussels, Belgium, 23-24 April, 2024.

#### **OTHER PRESENTATIONS AT CONFERENCES, WORKSHOPS, WEBINARS (INCLUDING CO-AUTHORSHIPS)**

1. Cousins, I.T., Smith, D.J., Watts, C.D. (1992) Field validation of an environmental fate model. Poster

- presentation at the RSC/SETAC symposium on the environmental fate of chemicals: prediction and measurement. 7-8 September, 1992, Lancaster University, UK.
2. Cousins, I.T., Cronin, M.T.D., Dearden, J.C., Watts, C.D. (1994) Use of molecular similarity indices for QSAR training set selection. Sixth International Workshop on Quantitative Structure-Activity Relationships (QSAR) in Environmental Sciences, Belgirate, Italy, 13-17 September.
  3. Cousins, I.T., Hartlieb, N., Teichmann, C. and Jones, K.C. (1996) Volatilization of polychlorinated biphenyls from sludge-amended soils. Dioxin 96: Thirteenth International Symposium on Chlorinated Dioxins and Related Compounds, 12-16 August, Amsterdam, The Netherlands.
  4. Mackay, D., Seth, R., Cole, J. and Cousins, I.T. (1999) The problem with partition coefficients. American Chemical Society 217th National Meeting, 21-25 March, Anaheim, CA, USA.
  5. Cousins, I.T., Barber, J.L., Thomas, G.O., Smith, K.S., Howsam, M., Hung, H., Mackay, D. and Jones, K.C. (1999) The Uptake and Depuration Kinetics of PCBs, PAHs and PCDD/Fs in Vegetation. II) Model Development. SETAC North America, 15-18 November, Philadelphia, USA.
  6. Cousins, I.T. and Mackay, D. (1999) Correlating the physical-chemical properties of phthalate esters using the 'three solubility' approach. SETAC North America, 15-18 November, Philadelphia, USA,
  7. Cousins, I.T. and Mackay, D. (2000) Including vegetation compartments in multimedia fugacity models: when are they needed and how can it be done? SETAC World Congress, 21-25 May, Brighton, UK,
  8. Mackay, D., Webster, E., Gouin, T. and Cousins, I.T. (2001) Assessing agrochemicals for the PBT attributes. ACS 221st Annual Meeting, 1-5 April, San Diego, USA
  9. Cousins, I.T. and Mackay, D. (2001) Multimedia modelling of phthalate esters using the 'Industrialized World' Model. SETAC World Congress, 6-10 May, Madrid, Spain.
  10. Palm, A., Cousins, I.T., Mackay, D., Tysklind, M., Metcalfe and Alae, M. (2001) Assessment of the environmental fate of emerging concern: a case study of the polybrominated diphenyl ethers, including a local-scale assessment using a new recently developed urban model. Second International Workshop on Brominated Flame Retardants, 14-16 May, Stockholm University, Sweden.
  11. Gouin, T., Thomas, G.O., Cousins, I.T., Barber, J., Mackay, D. and Jones, K.C. (2001) Simultaneous diurnal variation of PBDEs and PCBs in ambient air from southern Ontario. Third Annual Burlington Workshop on Brominated Flame-Retardants in the Environment, 23-24 August, 2001, Canada Centre for Inland Waters, Burlington, Ontario, Canada.
  12. Cousins, I.T., Cahill, T., Clark, K. and Mackay, D. (2001) Towards a Comprehensive Quantitative Understanding of Chemical Fate and Exposure: A Case Study of Phthalate Esters. SETAC North American Congress, 11-15 November, Baltimore, USA.
  13. Cousins, I.T., Staples C.A., Klečka, G.M. and Mackay, D (2002) A multimedia assessment of the environmental fate of BPA. SETAC Europe, 12-15 May, Vienna, Austria.
  14. Jönsson, A., Gustafsson, Ö and Cousins, I.T. (2002) PCBs in global shelf sediments: inventories and factors affecting distribution patterns. International conference on 'Understanding and Modelling the Regional and Global Scale Distribution and Fate of POPs', 7-9 October, Lancaster University, UK.
  15. Cousins, I.T. and Mackay, D. (2002) Understanding exposure of plants to phthalate esters: measurements and insights through modelling. SETAC North America, 16-21 November, Salt Lake City, Utah, USA.
  16. MacLeod, M., Cousins, I.T., Cahill, T., Webster, E., Woodfine, D., Seth, R., Milford, L., Fraser, A., Gouin, T., Warren, C., Ethier, A., Hickie, B. and Bentzen, E. (2002) Environmental Pathways: Tracking Contaminants from Source to Dose. SETAC North America, 16-21 November, Salt Lake City, Utah, USA.
  17. Cousins, I.T., Gouin, T. and Mackay, D. (2003) Assessing the importance of various air-surface exchange processes in estimating the atmospheric travel potential of POPs. SETAC Europe Annual

- Meeting, 27 April - 1 May, Hamburg, Germany.
18. Persson, N.J., Cousins, I.T., Gustafsson, Ö., Molvaer, J., Broman D. and Naes, K. (2003) A Soot-Carbon Inclusive Multimedia Model for the Fate of PCDD/Fs in the Grenlandsfjords, Norway. SETAC Europe Annual Meeting, 27 April - 1 May, Hamburg, Germany.
  19. Kubiak, R., Bürkle, W. L., Cousins, I.T., Hourdakis, A., Jarvis, T., Jene, B., Koch, W., Kreuger, J., Maier, W. M., Millet, M., Reinert, W., Sweeney, P., Tournayre, J. C., Van Den Berg, F. (2003) Focus – Air: Remits and First Results. XII Symposium Pesticide Chemistry, 4-6 June, Piacenza, Italy.
  20. Cousins, I.T., Prevedouros, K., Buck, R.C., Korzeniowski, S.C. (2005) Mass balance investigation of Perfluorooctanoic Acid (PFOA) environmental levels, emissions and sinks in the Northern Hemisphere. 25th International Symposium on Halogenated Environmental Organic Pollutants and Persistent Organic Pollutants, 21-26 August, Toronto, Canada.
  21. Armitage, J., Cousins, I.T. (2005) Application of a simplified bioaccumulation model: Estimation of elimination half-lives for PCDD/PCDFs. 25th International Symposium on Halogenated Environmental Organic Pollutants and Persistent Organic Pollutants, 21-26 August, Toronto, Canada.
  22. Prevedouros, K., Palm, A., Johansson, C., Cousins, I.T. (2005) Simulating the multimedia fate of polycyclic hydrocarbons (PAHs) in the environment of a major European centre. SETAC Europe, 22-26 May, Lille, France.
  23. Korzeniowski, S., Buck, R., Cousins, I.T., Prevedouros, K. (2005) Perfluorinated Carboxylic Acids (PFCAs): Sources, Emissions, Environmental Transport and Sinks. SETAC 26th Annual Meeting in North America, 13-17 November, Baltimore, USA.
  24. Breitholtz, M., Dahl, U., Bengtsson, B-E., Persson, J., Ricklund, N., Cousins I.T. (2006) A novel approach to test poorly water-soluble substances in aquatic toxicity testing. SETAC 16th Annual Meeting in Europe, 7-11 May, The Hague, Netherlands.
  25. Cousins, I.T., Armitage, J., MacLeod, M., Prevedouros, K., Buck, R.C., Korzeniowski, S.H., Russell, M.H. (2006) Sources, Fate and Global Modelling of the Perfluorinated Carboxylates. SETAC 16th Annual Meeting in Europe, 7-11 May, The Hague, Netherlands.
  26. Nfon, E., Cousins, I.T. (2006) Modelling PCB Bioaccumulation in a Complex Baltic Food Web Including Water and Air Breathing Species. SETAC 16th Annual Meeting in Europe, 7-11 May, The Hague, Netherlands.
  27. Cousins, I.T., Persson, N.J., Armitage, J., Saloranta, T., Broman, D., Naes, K. (2006) Black carbon-inclusive fugacity modelling tool for estimating the aquatic fate of PCCD/Fs in the Greenland Fjords in Norway. Dioxin 2006: 26th International Conference on Halogenated Persistent Organic Compounds, 21-25 August, Oslo, Norway.
  28. Saloranta, T.M., Barton, D.N., Armitage, J., Naes, K., Cousins, I.T. (2006) Modelling the effects and uncertainties of different sediment remediation scenarios in the Greenland Fjords, Norway. Dioxin 2006: 26th International Conference on Halogenated Persistent Organic Compounds, 21-25 August, Oslo, Norway.
  29. Cousins, I.T., Armitage, J., Prevedouros, K., MacLeod, M., Buck, R.C., Russell, M.H., Korzeniowski, S.H. (2006) Investigation of the environmental distribution and arctic transport of perfluorooctanoate through the application of a global mass balance model. Dioxin 2006: 26th International Conference on Halogenated Persistent Organic Compounds, 21-25 August, Oslo, Norway.
  30. Armitage, J.M., Cousins, I.T., McLachlan, M.S. (2006) Preliminary investigation of the sources and fate of PCDDs/PCDFs in the Baltic Sea environment. 27th Annual Meeting of SETAC North America, 5-9 November, Montreal Canada.
  31. Armitage, J., Prevedouros, K., Cousins, I.T., MacLeod, M., Buck, R.C., Russell, M., Korzeniowski, S. (2006) Modeling Global-Scale Fate and Transport of Perfluorooctanoate Emitted from Direct

- Sources. SETAC North America 27th Annual Meeting, 5-9 November, Montreal, Canada.
32. Armitage, J.M., Cousins, I.T., Prevedouros, K., Macleod, M., Russell, M.H., Buck, R.C. (2007) Global-Scale Fate and Transport of Perfluorocarboxylates and Perfluorocarboxylic Acids Emitted from Direct Sources using a Spatially-Resolved Multi-Species Model. SETAC Europe, 20-24 May, Porto, Portugal.
  33. Hauck, M., Huijbregts, M.A.J., Harbers, J.V., Armitage, J.M., Cousins, I.T., Pistocchi, A. (2007) Uncertainty and Spatial Variability in European Multi-Media Fate Models. SETAC Europe, 20-24 May, Porto, Portugal.
  34. McLachlan, M.S., Reth, M., Berger, U., Broman, D., Cousins, I.T., Nilsson, E.D. (2007) Quantifying the ocean-to-atmosphere transfer of perfluorinated chemicals via sea spray. SETAC Europe, 20-24 May, Porto, Portugal.
  35. Armitage, J.M., Cousins, I.T., Prevedouros, K., Macleod, M., Russell, M.H., Buck, R.C. (2007) Modelling the fate and transport of PFCAs emitted from direct sources using a global-scale chemical fate model. SETAC North America 28th Annual Meeting, 11-15 November, Milwaukee, Wisconsin, USA.
  36. Vestergren, R., Cousins, I.T., Trudel, D., Wormuth, M., Scheringer, M. (2008) Considering the role of precursor compounds in consumer exposure to PFOS and PFOA. Fluorinated Surfactants New Developments: 1st International Workshop, 26-28 June, Idstein, Germany.
  37. Armitage, J.M., Cousins, I.T., MacLeod, M. (2008) Modelling the long-term fate and transport of PFO(A) emitted from direct sources using a two-dimensional global-scale model. Dioxin 2008: 28th International Symposium on Halogenated Persistent Organic Pollutants, 17-22 August, Birmingham, UK.
  38. Vestergren, R., Cousins, I.T., Trudel, D., Wormuth, M., Scheringer, M. (2008) Considering the role of precursor compounds in consumer exposure to PFOS and PFOA. Dioxin 2008: 28th International Symposium on Halogenated Persistent Organic Pollutants, 17-22 August, Birmingham, UK.
  39. Trudel, D., Horowitz, L., Wormuth, M., Scheringer, M., Cousins, I.T., Hungerbuehler, K. (2008) Estimating Consumer Exposure to PFOS and PFOA. Dioxin 2008: 28th International Symposium on Halogenated Persistent Organic Pollutants, 17-22 August, Birmingham, UK.
  40. Vestergren, R. Cousins, I.T. (2009) Sources and pathways of human exposure to perfluorocarboxylates (PFCAs): A review. SETAC Europe, 19<sup>th</sup> Annual meeting, (ref: MO 278), 31 May – 4 June, Gothenburg, Sweden.
  41. Vestergren, R. Cousins, I.T. (2009) Combining exposure and pharmacokinetic modelling tools for elucidating the sources of human exposure to PFOA. 12th EuCheMS International Conference on Chemistry and the Environment (ICCE) (ref: Sil P15), 14-17 June, Stockholm, Sweden.

(2024) Alternatives to the use of per- and polyfluoroalkyl substances (PFAS) in the electrodes and electrolytes of lithium-ion batteries (LIBs). Poster presentation. SETAC Europe 34<sup>th</sup> Annual Meeting, Seville, Spain, 2-9 May 2024.
  175. Figuière, R., Savvidou, E., Miaz, L., [Cousins](#), I.T. (2024) Database of Alternatives to Per- and Polyfluoroalkyl Substances Based on the Functional Substitution Approach. Platform presentation. SETAC Europe 34<sup>th</sup> Annual Meeting, Seville, Spain, 2-9 May 2024.

176. Arp, H.P.H., Gredelj, A., Glüge, J., Scheringer, M., Cousins, I.T. (2024) How Do We Address the Global Threat of Irreversibly, Accumulating Trichloroacetic Acid (TFA)? Platform presentation. SETAC Europe 34<sup>th</sup> Annual Meeting, Seville, Spain, 2-9 May 2024.
177. Figuière, R., Wang, Z., Siegrist, A., Cousins, I.T. (2024) Implications for Implementing the "Essential-use" Concept in Chemical Regulations. Platform presentation. SETAC Europe 34<sup>th</sup> Annual Meeting, Seville, Spain, 2-9 May 2024.

#### PODCASTS AND VIDEOS

1. Cousins, I.T., Miaz, L., Savvidou, E., Figuière, R. (2022) Episode 3: Alternatives Assessment. How to find alternatives to PFAS that are not regrettable Part 1. The ZeroPM Podcast. Available online at: <https://poddtoppen.se/podcast/1630232834/zeropm/episode-3-alternatives-assessment-how-to-find-alternatives-to-pfas-that-are-not-regrettable-part-1-with-ian-cousins-luc-miaz-eleni-savvidou-and-romain-figuiere-from-stockholm-university>. 27 June 2022.
2. Cousins, I.T. (2022) PERFORCE3 ITN Project Overview. Episode 1 in the PERFORCE3 Short Video Series. Available online at: <https://vimeo.com/470138822>. 20 October 2020.
3. Cousins, I.T. (2020) Invited long interview for the "Talking PFAS" podcast. Episode 21 of a regular podcast hosted by Kayleen Bell. October 31, 2020. Recording online at: <https://podcasts.apple.com/us/podcast/ep-21-ian-cousins-sweden-we-think-the-pfass-are/id1434997639?i=1000496765839>.
4. Cousins, I.T. (2022) PFAS exceeds its Planetary Boundary! A break down of the science with Ian Cousins. Recorded interview with Hans Peter Arp for the ZeroPM Project. Available on YouTube at: <https://www.youtube.com/watch?v=XNBoOhkTIBA&t=8s> 18 August 2022.
5. Cousins, I.T. (2022) Episode 5: PFAS in rain exceeds safe levels and its planetary boundary! A break down of the science with Ian Cousins, interviewed by Hans Peter Arp. Available at: <https://poddtoppen.se/podcast/1630232834/zeropm/episode-5-pfas-in-rain-exceeds-safe-levels-and-its-planetary-boundary-a-break-down-of-the-science-with-ian-cousins-interviewed-by-hans-peter-arp>. 18 August 2022.
6. Cousins, I.T. (2022) Invited long interview for the "Talking PFAS" podcast. Episode 34: "Outside safe operating space for new planetary boundary for PFAS". 14 September 2022. Recording online at: <https://omny.fm/shows/talkingpfas/ep-34-professor-ian-cousins-sweden-outside-safe-op>.
7. Cousins, I.T. (2023) Interview for the podcast: 'Människorna bakom larmen – miljöforskningens historia' Avsnitt 1: PFAS – är vårt dricksvatten farligt? Interview conducted by Jana Johansson (in Swedish). All podcasts in the series available online at: <https://www.su.se/forskning/poddar-och-bloggar/m%C3%A4nniskorna-bakom-larmen-milj%C3%B6forskningens-historia-1.648016>. Published: 7 February 2023.
8. Figuière, R., Savvidou, E., Miaz, L., Cousins, I.T. (2023) Alternatives to PFAS and PMT substances in ZeroPM: Meet the WP2 team at Stockholm University. Short Video recording for the ZeroPM project and available on YouTube at: <https://www.youtube.com/watch?v=rhRoilEerAw>. 13 February 2023.
9. Cousins, I.T. (2023) Interview on PFAS by Radio Sweden (available on the weekly podcast), <https://podcastaddict.com/radio-sweden/episode/168084440>. Published: 8 December, 2023.

#### D. GRANTS AND CONTRACTS

##### FUNDING RECEIVED AS PRINCIPAL AND CO-INVESTIGATOR SINCE 2004 (BOLD NUMBER = FUNDING FOR SU ONLY)

- Swedish Research Council FORMAS, **3 000 000 SEK**, Emission of perfluoroalkyl acids sea spray aerosol in coastal regions, 2024-2026, co-applicant.
- Swedish Research Council FORMAS, **3 000 000 SEK**, Impacts of sea spray aerosol transport of

- perfluoroalkyl acids (PFAAs) on coastal regions, 2024-2026, main applicant.
- Swedish Research Council VR, **3 700 000 SEK**, Long-range transport of pollutants associated with marine aerosols, 2022-2025, main applicant.
- Sweden's Innovation Agency, Vinnova, **100 000 SEK**, Planning contribution competence centre in sustainable industry, 2021-2022, co-applicant.
- EU Horizon 2020, **8 600 000 SEK**, ZeroPM: Zero pollution of Persistent, Mobile substances, 2021-2026, joint applicant.
- Swedish Research Council FORMAS, **3 000 000 SEK**, Meeting the challenges of applying the "essential use" concept to per- and polyfluoroalkyl substances (PFAS), 2021-2023, main applicant.
- EU Horizon 2020 Marie Skłodowska-Curie Innovative Training Network, **9 000 000 SEK**, PER and polyfluorinated alkyl substances towards the Future Of Research and its Communication in Europe (PERFORCE3), 2020-2023, main applicant (in total around 42 000 000 SEK for a PhD training network in Europe).
- EU Horizon 2020 Marie Skłodowska-Curie Research and Innovation Staff Exchange, **650 000 SEK**, INTERWASTE: Synergising International Research into the Environmental Fate and Behaviour of Toxic Organic Chemicals in the Waste Stream, 2017-2020, joint applicant, main applicant: Stuart Harrad (University of Birmingham).
- Stockholm University (competitive internal grant), **4 000 000 SEK**, 2017-2021, main applicant.
- Swedish Research Council VR, **3 560 000 SEK**, Long-range transport of pollutants associated with marine aerosols, 2017-2020, main applicant.
- Region Stockholm, **3 126 000 SEK**, Substitution in Practice of Prioritized Fluorinated Chemicals to Eliminate Sources from Healthcare (SUPFES-Health), 2017-2019, main applicant.
- Swedish Research Council FORMAS, **3 000 000 SEK**, Contribution of sea spray aerosol particles to the atmospheric deposition of perfluoroalkyl acids, 2017-2019, main applicant.
- Swedish Research Council FORMAS, **4 800 000 SEK**, Does climate change threaten fishery ecosystem services in the Baltic Sea via increased mercury contamination of biota? 2015-2017, joint applicant, main applicant: Erik Björn.
- Swedish Research Council FORMAS, **4 000 000 SEK**, Substitution in Practice of Prioritised Fluorinated Chemicals to Eliminate Diffuse Sources (SUPFES), 2013-2020, joint applicant, main applicant: Christina Jönsson.
- Swedish Research Council FORMAS, **4 120 000 SEK**, Quantifying Multiple Pathways of Human Exposure to Perfluoroalkyl acids, 2013-2015, main applicant.
- EU DGXII Seventh Framework Programme, **4 050 000 SEK**, SOLUTIONS for present and future emerging pollutants in land and water resources management, 2013-2018, joint applicant, main applicant: Werner Brack (UFZ Leipzig, Germany), multiple other applicants from various European partners.
- EU DG XII Seventh Framework Programme, **5 000 000 SEK**, Marie Curie Initial Training Network, Advanced Tools for Exposure Assessment and Biomonitoring (ATEAM), 2013-2017, joint applicant, main applicant: Stuart Harrad, multiple other applicants from various European partners.
- Swedish Research Council FORMAS, **3 500 000 SEK**, Experimental and modelling studies to probe the unique environmental behaviour of perfluorinated acids, 2012-2014, main applicant.
- Norwegian Research Council, **2 000 000 SEK**, Are PFCs entering the human diet close to point sources in China and Norway (HOTSPOTFLUOR)? 2011-2014, joint applicant, main applicant: Dorte Herzke (NILU), other applicants: Torkjel Sandanger, Jan Ove Bustnes, Børge Moe, Roland Kallenborn, Thanh Wang, Yawei Wang, Yaqi Cai, Guibin Jiang, Han Wenya, Yongning Wu.
- German Environmental Protection Agency, **200 000 SEK**, Human exposure of perfluorinated alkyl substances arising from outdoor clothing, 2011-2012. Joint applicant, main applicant: Thomas

- Knepper.
- Swedish government, **3 500 000 SEK**, as part of its Strategic Research Initiative on Marine Environmental Research, Baltic Ecosystem Adaptive Management (BEAM), 2011-2014, co-applicant with Michael McLachlan, main applicant: Ragnar Elmgren and numerous others. Funding supports Emma Undeman as an assistant professor in my research group.
  - Swedish EPA, **1 200 000 SEK**, BalticPOPs, 2010-2012, joint applicant, main applicant: Karin Wiberg (Umeå University), other applicants: Anders Bignert and Michael McLachlan.
  - Swedish Research Council for Environment, Agricultural Science and Spatial Planning (FORMAS), **25 000 SEK**, 2010, travel grant to give an invited presentation at PacificChem in Honolulu, main applicant.
  - EU DG XII Seventh Framework Programme, **3 900 000 SEK**, Marie Curie INFLAME: Indoor Contamination with Flame Retardant Chemicals: Causes and Impacts 2010-2014, joint applicant, main applicant: Stuart Harrad (University of Birmingham), multiple other applicants from various European partners.
  - NORDFORSK, **1 000 000 SEK**, Nordic Network for Research on Fluorinated Compounds (NordFluor), 2010-2013, main applicant.
  - EU DG XII Seventh Framework Programme, **1 300 000 SEK**, ENFIRO: Life Cycle Assessment of Environment-Compatible Flame Retardants: Prototypical Case Study, 2010-2012, joint applicant, main applicant: Pim Leonards (Vrije University Amsterdam), multiple other applicants from various European partners.
  - Östergötlands Länsstyrelse, **480 000 SEK**, Modelling the Long-term Fate of Persistent Organic Pollutants in Bråviken, 2010-2011, main applicant.
  - EU DG XII Seventh Framework Programme, **2 100 000 SEK**, ArcRisk: Arctic Health Risks: Impacts on health in the Arctic and Europe owing to climate-induced changes in contaminant cycling, 2009-2014, main applicant: Janet Pawlak, multiple other applicants from various European partners.
  - EU DG XII Seventh Framework Programme, **4 800 000 SEK**, PERFOOD: PERFluorinated Organics in Our Diet, 2009-2012, joint applicant, main applicant Pim de Voogt (University of Amsterdam), multiple other applicants from various European partners.
  - Swedish Research Council FORMAS, **2 400 000 SEK**, Mass balance of perfluorinated alkyl substances in the Baltic Sea, 2009-2012, joint applicant, main applicant: Michael McLachlan, other applicants: Urs Berger, Christoph Humborg.
  - Swedish Research Council FORMAS, **9 200 000 SEK**, A sound science-based assessment of organic contaminants in the marine environment, 2009-2012, joint applicant, main applicant: Michael McLachlan, other applicants: Urs Berger, Magnus Breitholtz, Brita Sundelin,
  - DuPont Chemicals, **1 400 000 SEK**, Developing modelling tools for estimating the fate and exposure of perfluorinated carboxylates and related substances, 2007-2009, main applicant. Unrestricted gift.
  - Swedish Environmental Protection Agency, **100 000 SEK**, Effect on climate change on the fate of organic contaminants, 2006-2007, main applicant.
  - DuPont Chemicals, **120 000 SEK**, Estimating sources and modelling of PFCAs, 2006, main applicant. Unrestricted gift.
  - Fisk Associates, UK, **80 000 SEK**, Consultancy, Regional modelling of an organic contaminant, 2006, main applicant.
  - Swedish Research Council FORMAS, **1 900 000 SEK**, Is indoor air a significant human exposure pathway for tetra-decabrominated diphenyl ethers, hexabromocyclododecane and perfluorinated compounds as well as a major emission source to outdoor air? 2006-2008, joint applicant, main applicant: Cynthia de Wit (ITM), other applicants: Ulla Sellström

- Swedish Research Council FORMAS, **3 260 000 SEK**, Ocean-atmosphere transfer of organic, biological and toxic aerosols, 2005–2007, joint applicant, main applicant: Douglas Nilsson (ITM).
- EU DG XII, Sixth Framework Programme, **2 800 000 SEK**, EU Integrated Project NOMIRACLE: Novel Methods for Integrated Risk Assessment of Cumulative Stressors in Europe, 2005-2009, joint applicant, main applicant: Hans Løkke, multiple other applicants from various European partners.
- EU DG XII Sixth Framework Programme, **1 000 000 SEK**, EU Marie Curie Intra-European Fellowship RAMSES: Risk Assessment Methodologies for Surfactants of Environmental Significance, 2005-2007, main applicant.
- Swedish Research Council FORMAS, **1 700 000 SEK**, Long-range atmospheric transport of particle-associated organic contaminants, especially decabromodiphenyl ether (DeBDE), 2005-2007, joint applicant, main applicant: Ulla Sellström (ITM), other applicants: Michael McLachlan.
- DuPont Chemicals, **90 000 SEK**, Estimating sources and modelling of PFCAs, 2005, main applicant. Unrestricted gift.
- WRc plc UK, **50 000 SEK**, Consultancy, Risk assessment of a petroleum product, 2005, main applicant.
- EU DG XII Sixth Framework Programme, **1 900 000 SEK**, EU Integrated Project ALARM: Assessing large scale environmental risks for biodiversity with tested methods, 2004-2008, joint applicant main applicant: Josef Settele, multiple other applicants from various European partners.
- Swedish Research Council FORMAS, **455 000 SEK**, Modelling contaminant fate in Baltic food webs and resulting exposures to wildlife and humans, 2004–2005, main applicant.
- Norwegian Research Council, ITM/Stockholm University received: **780 000 SEK**, Development of a flexible, integrated modeling tool for management of contaminated aquatic systems, 2004-2005, joint applicant, main applicant Kristoffer Næs, other applicants: Dag Broman.
- Syngenta UK, **90 000 SEK**, Consultancy, Fate and bioaccumulation of pesticides in aquatic microcosms, 2004-2005, main applicant.
- Swedish Research Council FORMAS, **630 000 SEK**, Equipment grant for Accelerated Solvent Extractor, 2004, joint applicant, main applicant: Örjan Gustafsson (ITM), other applicants: Cindy de Wit, Dag Broman, Johan Axelman.
- Swedish Environmental Protection Agency, **75 000 SEK**, grant for planning a major application, 2004, main applicant.

## E. SERVICE

### COMMITTEES IN DEPARTMENT AND UNIVERSITY

- Faculty Appointment Committee for the Science Faculty (2017 – present)
- Member of the Department Board (2015 – 2021)
- Member of the Department Education Committee (2010 – 2019)
- Member of the Researcher Education Board (2020 – 2023)
- Head of Outreach activities in the department (2018 – present)
- Member of the Faculty Outreach Committee (2024 - present)

### EXTERNAL COMMITTEES

- Member of the EU FOCUS-Air committee from 2002 to 2008, which had the task of developing new guidelines for the risk assessment of pesticides present in air.
- Search committees: evaluated several applications to the Canada Chair program, which provided tenure track and full professor positions to promising scientists to Canadian universities,

applications for promotion to Associate Professor and Professor at Swedish and international universities, application to Distinguished Professor at one US university, and new academic appointments at several Swedish universities.

- Member of the awards committee for the 2023 Outstanding Achievements in Environmental Science & Technology Award from the American Chemical Society

#### EXTERNAL EXPERT ON PROJECTS

- External Expert on the POPFREE project “Promotion of PFAS-free alternatives” (Stage One and Stage Two, 2016-2022) led by RISE Research Institutes of Sweden and funded by Sweden’s Innovation Agency, Vinnova.
- External Expert on the panel of project “Development of Contamination Resistance as a Measure for Firefighter Protective Clothing” (2021-2024) led by North Carolina State University (NCSU) Textile Protection and Comfort Center (TPACC) with collaborative support from the Illinois Fire Service Institute (IFSI), International Personnel Protection, Inc. (IPP), Emergency Response Tips, LLC, and the Fire Protection Research Foundation (FPRF). Funded by the DHS FEMA Assistance to Firefighters Grant (AFG), Award No.: EMW-2020-FP-01120.

#### EDITORIAL WORK FOR SCIENTIFIC JOURNALS

- One of three founding Editors of *Environmental Au* (a new ACS open access journal) (Jan. 2021 – present). In June 2023, *ACS Environmental Au* was accepted for indexing in Web of Science: Emerging Sources Citation Index and will receive its first impact factor in January 2024.
- Associate Editor, *Environmental Science and Technology*, Dec. 2020 – present (handling 250–300 papers per year).
- Associate Editor, *Chemosphere* (Jan. 2012 – Apr. 2018 (stepped down)), handled >1500 articles.
- Editorial Board member of *Environmental Toxicology and Pharmacology* (Apr. 2018 – present).
- Editorial Board member of *Emerging Contaminants* (Sep. 2018 – present).
- Editor of special issues focusing on PFAS, one in *Chemosphere*, one in *Environmental Science and Pollution Research*, two in *Environmental Science, Processes and Impacts* (ESPI) and *Environmental Science: Water Research & Technology* (ESWRT) and one in *Environmental Science and Technology*.

#### MEMBERSHIP IN SCIENTIFIC SOCIETIES/PANELS/COUNCILS

- Elected Member of the Royal Society of Chemistry (MRSC) and Chartered Chemist (CChem), in 1994.
- Elected Member of the American Chemical Society, Environmental Division, since 1999.
- Member of Society for Environmental Toxicology and Chemistry, since 1995.
- Member of the Global PFAS Science Panel (2018– present).
- Member of the International Panel on Chemical Pollution (IPCP) (2019 – present).
- Elected Member of the Toxicology Council (“Toxikologiska rådet”), which is a Swedish expert organization with the task of identifying chemical substances that may be harmful to human health or the environment.
- Appointed to the Government of Jersey’s PFAS Scientific Advisory Panel (2023 – present).
- Elected Member of the Scientific Council for Stockholm City’s Chemicals Centre (2023 – present).

#### REVIEWER FOR INTERNATIONAL FUNDING PROGRAMS

- Regular reviewer of research proposals for the Swedish, Norwegian, Danish, Czech and European Union research councils, the Strategic Environmental Research and Development Program (SERDP)

in the U.S., the Natural Science Engineering Research Council of Canada (NSERC), the US Agency for Toxic Substances and Disease Registry (ATSDR), the Centers for Disease Control and Prevention in the US, the US National Science Foundation (NSF) and the European Chemical Industry (CEFIC) Long-range Research Initiative (LRi).

#### **REVIEWER FOR PEER-REVIEWED JOURNALS**

- Reviewer of peer-reviewed journals for: Atmospheric Environment, Chemosphere, Environmental Chemistry, Environmental Health Perspectives, Environment International, Environmental Pollution, Environmental Research, Environmental Science and Pollution Research, Environmental Science and Technology, Environmental Science and Technology Letters, Environmental Science, Processes & Impacts, Environmental Science: Water Research & Technology, Emerging Contaminants, Environmental Toxicology and Chemistry, Environmental Toxicology and Pharmacology Journal of Agricultural and Food Chemistry, Journal of Hazardous Materials, Journal of Occupational and Environmental Hygiene, Marine Pollution Bulletin, Proceedings of the Natural Academy of Sciences for the United States of America, Water Research, Science of the Total Environment.

#### **EXAMINER FOR PH.D., LICENTIATE, MSc AND BSc DEFENSES**

- Member of the examining committee for the Ph.D. defense of Linda Kumblad, Department of Systems Ecology, Stockholm University, Sweden, 13 May, 2004.
- Member of the examining committee for the Ph.D. defense of Sarah Rahm, Department of Environmental Chemistry, Stockholm University, Sweden, 1 October 2004.
- Faculty opponent to the Ph.D. defense of Raphael Charles, École Polytechnique Fédérale de Lausanne (EPFL), Lausanne, Switzerland. 28 October 2004.
- Faculty opponent to the Ph.D. defense of Anne Hollander, Radboud University, Nijmegen, The Netherlands, 10 September 2008.
- Member of the examining committee for the licentiate thesis defense of Emma Undeman, Department of Applied Environmental Science, Stockholm University, Sweden, 30 March 2009.
- Faculty opponent to Ph.D. defense of Lara Lamon, Department of Environmental Sciences, University Ca' Foscari of Venice, Italy, 3 March 2010.
- Faculty opponent to Ph.D. defense of Sonia Gomez, Department of Chemical Engineering and Inorganic Chemistry, University of Cantabria, Spain, 7 May 2010.
- Member of the examining committee for the licentiate thesis defense of Ingrid Tjensvoll, Department of Systems Ecology, Stockholm University, Sweden, 20 May 2010.
- Member of the examining committee for the Ph.D. defense of Anna Rotander, MTM – Man-Technology-Environment, Örebro University, Örebro, Sweden, 30 September 2011.
- Member of the examining committee for the licentiate defense of Maryam Dalirian, Department of Environmental Science, Stockholm University, Sweden, 21 November, 2014.
- Faculty opponent for the M.Res. defense (equivalent to licentiate) of Suzie Buckmaster, Lancaster University, Lancaster, UK, 24 November, 2014.
- Member of the examining committee for the Ph.D. defense of Kristin Larsson, Department of Environmental Medicine, Karolinska Institute, Stockholm, Sweden, 1 June, 2018.
- Faculty opponent to Ph.D. defense of Timothy Coggan, Centre for Environmental Sustainability and Remediation, School of Science, Royal Melbourne Institute of Technology (RMIT), Melbourne, Australia, 28 April, 2020.
- Member of the examining committee for the Ph.D. defense of Rudolf Aros, School of Science and

Technology, Örebro University, Sweden, 24 September 2021.

- Member of the examining committee for the Ph.D. defense of Dauren Mussabek, Department of Building and Environmental Technology, Lund University, Sweden, 14 October 2021.
- Member of the examining committee for the M.Sc. thesis of Sean Spangol, Department of Chemistry, University of Malta, 9 November 2022.
- Member of the examining committee for the Ph.D. thesis of Jean Noel Uwayezu, Department of Civil, Environmental and Natural Resources Engineering (SBN), Luleå University of Technology (LTU), Luleå, Sweden, 31 October 2023.
- Faculty opponent for the Ph.D. defense of Xingao Yuan Xiong, Department of Biological and Chemical Engineering, Aarhus University, Aarhus, Denmark, 6 December 2023.
- Faculty opponent for the Ph.D. defense of Sofie Björklund, Department of Chemistry, Umeå University, Sweden 27 September 2024.
- Examiner of multiple M.Sc. and B.Sc. theses internally at Stockholm University.

#### **INTERNATIONAL WORKSHOPS, CONFERENCES AND NETWORKS ORGANIZED**

- Chair of the Special Workshop on Recent Developments in the Environmental Chemistry of Per- and Polyfluorinated Compounds (PFCs), 14 June, 2009, Stockholm University, Sweden.
- Chair of the 3rd International Workshop on Anthropogenic Perfluorinated Compounds, 15-17 June, 2011, Amsterdam, the Netherlands.
- Co-Chair of the NoMiracle International Workshop on Exposure, 1-2 April 2008, UFZ Leipzig, Germany.
- Co-Chair of the 5th International Workshop on Fluorinated Compounds in materials, humans and the environment in Helsingør, Denmark, October 27-29, 2013.
- Coordinator of Nordfluor (Nordforsk Nordic Network for PFAS) which comprised 22 research groups from the Nordic region.
- Joint organizer of the ongoing Swedish PFAS Network with 2 meetings a year at our department.
- Chair or co-chair of multiple platform sessions at the Society of Environmental Toxicology and Chemistry (SETAC) Europe meetings focusing on PFAS (9 sessions at Seville 2024, Dublin 2023, Copenhagen 2022, SETAC Europe 2021 and 2022 (virtual events), Helsinki 2019, Rome 2018, Nantes 2016, and Basel 2014) and other topics (3 sessions: 2 on chemical substitution at Rome 2018 and Dublin 2023 and 1 on exposure modelling at Nantes 2016).
- Co-chair of session on “Advances in Methods and Technologies for Emission Monitoring, Modelling, and Exposure Assessment of Emerging Pollutants in the Atmosphere” at the European Geosciences Union (EGU) General Assembly, Vienna 2024.
- Co-Chair of the SETAC North America Focused Topic Meeting: Environmental Risk Assessment of PFAS, 12-15 August 2019, Durham, North Carolina, US.
- Co-Chair of the ITN PERFORCE3 workshop on new research outcomes on PFAS use, human exposure and waste handling, 15 September 2021, NILU – Norwegian Institute for Air Research, Hjalmar Johansens gate, Tromsø, Norway.
- Co-Chair of the organizing committee for FLUOROS 2023, scheduled for 29<sup>th</sup> August – 1<sup>st</sup> September, 2023 in Idstein, Germany.

#### **F. SELECTED ADDITIONAL MERITS**

- #1 most cited paper in *Environmental Science and Technology* for 2006 and one of the most cited papers in the history of the journal with >2500 citations.
- *Environmental Science and Technology* Best Technology Paper Award in 2009.

- #1 most cited paper in *Integrated environmental assessment and management* for 2011 and one of the most cited papers in the history of the journal with >3100 citations.
- Two papers published in *Environmental Chemistry* in 2011 were among the few papers selected as “Highlights of the Year” for the journal in 2011.
- *Environmental Science and Technology* Best Feature Article Award in 2013.
- In 2014, I was one of 19 chemistry researchers who wrote an open letter calling on the government to set up a commission to investigate why Swedish authorities were late in detecting the widespread contamination of drinking water with PFAS. After a meeting between the researchers and the Swedish Minister for the Environment (Åsa Romson) at the Department of the Environment, the commission was set up and an investigation conducted.
- A paper in *Emerging Contaminants* was judged as one of the highlights of the journal in 2017.
- A paper published in *Environmental Science: Processes and Impacts* in 2018 selected by the editors as one of the year’s best papers.
- Identified as a “Highly Cited Researcher” by Clarivate Analytics in 2018. To achieve this accolade, multiple highly cited papers were published in the previous decade, which are defined as those ranking in the top 1% by citations for a publication field and year.
- Worked as an expert witness in five class action lawsuits in Australia regarding PFAS contamination by fire-fighting foams around military bases (2018-2023).
- Paper in *Environmental Science and Technology Letters*, 2019 was elected for Editor’s Choice, granting free open access for one year.
- Four papers published in *Environmental Science: Processes and Impacts* in 2019 was selected by the editors as among the year’s best papers.
- Identified as a “Highly Cited Researcher” by Clarivate Analytics in 2020. To achieve this accolade, multiple highly cited papers were published in the previous decade, which are defined as those ranking in the top 1% by citations for a publication field and year.
- Royal Society of Chemistry Environmental Science journal portfolio Best Paper Award 2020.
- *Environmental Science: Processes and Impacts* Overall Best Paper Award 2020.
- *Environmental Science: Processes and Impacts* Best Review Paper Award 2020.
- Two papers published in *Environmental Science: Processes and Impacts* in 2020 selected by the editors as among the year’s best papers.
- *Environmental Science and Technology* Best Feature Article Award in 2021.
- A paper published in *Environmental Science: Processes and Impacts* in 2021 was selected by the editors as among the year’s best papers.
- Worked as an advisor and reviewer for the National Center for Environmental Health/Agency for Toxic Substances and Disease Registry (NCEH/ATSDR) Office of Science in the US when they conducted exposure assessments at eight communities near current or former military bases known to have had PFAS in their drinking water (2021-2022).
- Among the top 100 most followed scientists on social media (Twitter and LinkedIn) in Sweden in 2022.
- Acted as referee for the promotion of Maria Antoniou (Cyprus University of Technology) from Assistant Professor to Associate Professor, referee for Thanh Wang (Linköping University, Sweden, 2023) and Matt Simcik (University of Minnesota, USA, 2019) from Associate Professor to Professor, and referee for the promotion of Linda Lee (Purdue University, USA, 2021) from Professor to Distinguished Professor.
- Most downloaded paper in 2022 and in the history of *Environmental Science and Technology* with >257,000 full downloads and Altmetric > 3250 (published in August 2022). This paper also won the Best Perspective Paper Award 2022.

- Working on the PFAS Scientific Advisory Panel for the Government of Jersey (June 2023 – present). The Panel will advise and make recommendations to the Government in relation to the finding of higher than benchmarked levels of PFAS in Islanders blood.
- Appeared on the ENDS Europe Impact List in 2023. This is a list of the EU politicians and EU professionals who have made the greatest impact in environmental policy in the past two years.
- *Environmental Science: Processes and Impacts* Overall Best Paper Award 2023.
