Book launch

The COALITION Project team welcomes you to this festive closure of the EU-funded COALITION project. During this presentation we reflect on the accomplishments to launch the evidence-based Faculty Guide book *Inclusive Student-Centred Pedagogies in Higher Education*. In the comparative European-wide COALITION project six universities collaborated in collecting research data and applied observations on inclusive student-centred pedagogies (i-SCP) and their implementation for faculty development in higher education. We compared faculty development practices and disseminated knowledge and expertise about inclusive student-centred teaching. During this online project closure, we launch the Faculty Guide and celebrate the projects results.
